Summary from Nordea Kredit’s “Base Prospectus for the issuance of mortgage bonds (ROs) and covered mortgage bonds (SDROs)” dated 21 December 2017

This summary should be read solely as an introduction to the Base Prospectus, and any decision to invest in the Bonds should be based on the Base Prospectus as a whole.

The summary is constructed on the basis of a number of disclosure requirements known as “Elements”. The Elements are numbered in sections A-E.

This summary contains all the Elements required for this type of securities and issuer. As not all Elements are required to be included, there may be gaps in the numbering sequence of the Elements.

Even though an Element is required to be inserted in the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In that case a short description of the Element is included in the summary with the words “Not applicable”.
