Our Transformation
Transformation summary

Significant progress has been made over the last two years

- Material improvement in overall Resilience, including measurably strengthened 2nd & 3rd line and Core Systems
- Digital platform strengthened to remain relevant towards Customers
- Successful Legal Structure Project and stronger balance sheet, improved credit quality and further strengthening of ancillary income

Embarking on a full fledged transformation journey

- We are re-inventing banking from a position of strength; large customer base, strong balance sheet with ability to invest in the future
- Nordea’s operating model will be Scalable, Agile and Resilient and will provide the foundation for winning in the marketplace

The Transformation also delivers significant improvement in efficiency, profitability and capital generation

- Target of total costs incl. transformation costs < EUR 4.8bn in 2021
- Continued significant CET1 accumulation and robust outlook for delivering on our dividend policy
- Continued improvement of RoE
Nordea has the largest financial services platform in the Nordics

Nordea at a glance

- 11 million customers
  - 10 million household customers
  - 540,000 corporate & institutional customers
  - Operating in the 10th largest economy in the world
  - Distribution power through 600 locations and 7 million Netbank customers

Strong financial position

- EUR 10bn in full year income (2016)
- EUR 615,3bn of assets (Q3 2017)
- EUR 32,3n in equity capital (Q3 2017)
- Common Equity Tier 1 Capital ratio of 19.2% (Q3 2017)

~ EUR 46,3bn in market cap

- One of the largest Nordic corporations
- A top-10 universal bank in Europe

6 1) Calculated as quarter on quarter volatility in CET1 ratio, adjusted so that the volatility effect of those instances where the CET1 ratio increases between quarters are excluded
2) 9 months annualised
We face strong external and internal forces – change is underway

**External forces driving a need for change**

- Volatility
- Uncertainty
- Complexity
- Ambiguity

**Internal forces driving a need for change**

**Underlying cost pressure**

Large investments in transformation causing:
- Increased running costs
- Increased depreciations and amortisations

**Need for “Common Model”**

- Common operating model needed to address the complex structure from multi-country and multi-regulator set-up
Our ambition is to be the Future Relationship Bank

We need certain key attributes … + … alongside an all-pervasive customer focus … = … to become the Future Relationship Bank

EFFICIENT AND SCALABLE

Cost competitive + Reduction of complexity

FAST AND AGILE

Meeting evolving customer needs + Acting on business opportunities and treats

RESILIENT AND COMPLIANT

Balance sheet robustness + Adapting to changing regulatory environment

Customer satisfaction primary driver in everything the bank does

Outside-in perspective creating customer focus across organisation

Enables bank to innovate and stay relevant

Easy to deal with

Anywhere and anytime

Relevant and competent

Stable and trustworthy

Nordea
We are ready to take the next step in our transformational journey

Illustrative timeline

- Ambitious investments to build the foundation
  - Fast & agile
  - Efficient and Scalable
  - Resilient and compliant

EXECUTION (2018 – 2021)
- Distribution/Channels/Service model
- Credit Processes & Products
- IT & Ops
- Key support functions

OPTIMISATION (2021 - )
- Future relationship bank

Success factors
**Financial outlook**

<table>

**More focused lending portfolio while at the same time reduced complexity**

**Non-Nordic regions down by ~40%**
- Baltics
  - Joint venture with DNB in the Baltics
  - Create a competitive and bank with scale
  - Nordea remain as shareholder
- Russia
  - Scale down of the business in favour for Nordic corporate focus
  - Divestment of Retail portfolio
- Poland (divested in '13)
  - Not in line with the relationship strategy
  - Regulatory risks

**Risky segments down by 10%**
- Exposure toward segments such as shipping, oil and agriculture expected to be further reduced over coming years

We are significantly reducing the risks

Ambitious investments in building key attributes have been done

**Illustrative timeline**

  - Ambitious investments to build the foundation
  - Fast & agile
  - Efficient and Scalable
  - Resilient and compliant

- **EXECUTION** (2018 – 2021)
  - Distribution/Channels/Service model
  - Credit Processes & Products
  - IT & Operations
  - Key support functions

- **OPTIMISATION** (2021 - )
  - Future relationship bank
Ambitious ramp-up with large investments to build key attributes

**Development spend (gross*)**

- **2015:** 74 EURm
- **2016:** 86 EURm
- **2017:** 229 EURm
- **2018:** 274 EURm

**Comments**

- **Development spend and Capitalisation** expected to peak in 2017
- **IT related intangible assets** expected to peak in 2020 (at approx. 2.5EURbn) and **depreciation & amortisations** in 2021

---

**We invest in ...**

- **Digital**
  - Fast and Agile
- **Simplification**
  - Efficient and Scalable
- **Compliance & Resilience**
  - Resilient and compliant

---

- Note "Other" includes initiatives related to cost efficiency, income growth and other BA/function priorities
- *Gross spend, financial effects both on P&L and capitalisation
Fast and agile – positioning the mobile in the center

Online and face-to-face meetings

Chat, chatbots, calls – 24/7

Mobile as entry point to all services

Aggregated open banking services

Global wallets

Local providers

Mobile banking app screen represents a beta version
## Fast & Agile

| Nordea Digital Web (Corporate) | • Delivered first version of Nordea Digital Corporate  
| | • Easy day-to-day banking together with integrated remote support and advice |
| Digital Sales | • Opened totally renewed and modern open pages e-commerce shop (Nordea.xxx)  
| | • Personalised online messages generating sales |
| Nordea Digital Foundation Platform | • Modern Java microservices based platform powering new mobile/web applications, live in Sweden and Finland |
| Nordea Digital Markets | • Upgraded next generation FX e-Commerce platform, e-Markets (mobile FX trading for corporate segment)  
| | • Auto FX solution - awarded for Product Innovation in Global Finance’s The Innovators awards for 2017 |
| Open Banking | • Invited >800 companies to collaborate in a sand box environment  
| | • First in the Nordic market with Open Banking |
Cloud

- Elastic backend infrastructure and development of business solutions
- Software as a Service
- Agile development by combining Platform as a Service with cloud development
- Employee productivity by implementing Office 365

Core Banking Platform

- Progressing according to plan and on the brink of first major customer release
- T24 Model Bank configured for Nordea and installed on infrastructure
- Finnish staff pilot for a fixed term deposit product launched

Robotics

- Building capabilities and automating processes across the Group
- Number of robots in production approaching 200. First chatbot (AI) live in Norway
- Deployments expected to reach full potential by mid 2019.
- Exploration of first automation capacity to onboard cognitive technologies.

Other Simplification

- Integrated Global Payment Engine and migrated all SEPA Interbank payments
- Centralised data mgmt. and development of common data infrastructure
- Core system upgrades in Nordea Finance and Nordea Life & Pension DK
- Reducing complexity (Trading & Risk area and Safekeeping)
Resilient and Compliant

**Compliance & Operational risk**
- Capacity upgrade in 1st, 2nd and 3rd line
- Implementation of new code of conduct and business continuity framework
- Enforcing the Crisis management governance and capabilities
- Comprehensive training and certifications of key staff

**Technology & Infrastructure**
- Enhanced Information and Cyber security strategy and response capabilities
- Insourcing of IT operations
- Full data-centre fail over test
- Integrated end-2-end Technology Operations and Support organisation

**Financial Crime**
- Significant build up of group wide financial crime organization
- Global KYC and Sanctions standards implemented
- Centralizing and optimizing KYC & AML operations
- Enterprise Risk Assessment framework delivered, full implementation 2018

**IT remediation**
- One PreProduction site in Finland established
- Global Enterprise Identity & Access Rights Management control system
- Roll-out of Malware Detection & Global Fraud Monitoring across Nordic
- IT Control Assurance Framework rolled out
Execution is about enhancing core competitiveness through very specific initiatives.

**Illustrative timeline**

  - Ambitious investments to build the foundation
    - Fast & agile
    - Efficient and Scalable
    - Resilient and compliant

- **EXECUTION** (2018 – 2021)
  - Distribution/Channels/Service model
  - Credit Processes & Products
  - IT & Operations
  - Key support functions

- **OPTIMISATION** (2021 – )
  - Future relationship bank

**Success factors**

   - Fast & agile
   - Efficient and Scalable
   - Resilient and compliant

2. **EXECUTION** (2018 – 2021)
   - Distribution/Channels/Service model
   - Credit Processes & Products
   - IT & Operations
   - Key support functions

3. **OPTIMISATION** (2021 – )
   - Future relationship bank
Expected cost development 2017-2021

- Estimated 2017 Cost incl. Transformational costs: ~5,100-5,200
- Baltics & Re-domiciliation: ~75 - 50
- Run cost effects of 2015-17 ramp-up, reinvestments and inflation: ~300-400
- Depreciation & Amortisation: ~300
- Group projects ramp-down: -150
- Transformational 2021 Cost incl. Transformational costs: <4,800
- Transformational driven gross savings: -900

Comments:

- Significant underlying cost pressure of 600-700m driven by:
  - Increasing running expenses for IT systems following the substantial development agenda/digital transformation and compliance
  - Annual underlying salary increases and inflation on non-staff expenses
  - Increasing depreciations & amortisations following substantial product/investments in IT infrastructure / solution platforms
  - Gross savings driven by transformation, as well as lower project costs, more than counteracting the upward pressure
### Gross cost savings of around 900 EURm expected through transformation

<table>

<td></td>
<td></td>
<td>~ 10% (~100 EURm)</td>
</tr>
</tbody>
</table>

| Total | 100% (~900 EURm) |

*Numbers rounded to closest 5%
The transformation will include a reduction of FTEs of >4,000. New hirings to support competence shift and centralisation. Number of consultants to be reduced by ~2,000 over the 2017-2021 period. The transformation is expected to generate a total cost to transform of ~5-600m over the 2017-2021 period. Absolute majority of cost to transform consists of redundancy costs. The costs are mainly related to: Transformation of Personal Banking and CBB including the migration to Digital. IT & Operations (nearshoring and automation & process optimisation).
### Expected financial performance development towards 2021

</tbody>
</table>

*Note: WM interim perspective. 2017 numbers based on annualised figures per ytd annualized*

Gradually improved Group return and cost efficiency as areas address and close their relative performance gaps.
Personal Banking

Key transformation initiatives

Improved customer value through evolving mobile offering and partnerships
- Establish the mobile as the main tool for interaction
- Encourage digital sales and distribution by using analytics based digital cross selling and onboarding
- Customers are increasingly requesting online meetings on behalf of face-to-face meetings

Optimization of distribution network
- Serve all customers through a digital (mobile)-first, lean core offering, which caters to the needs of most customers and delivers scalability
- Focus on high-value customers (Homeowners and Affluents) with tailored value propositions added on top of the lean core offering

Streamline the service processes
- Reduce costs in processing e.g., through automation of product processing, nearshoring, robotics and lean, including automating front-office processes to allow reduction of Customer Service Officers
- Implement agile way of working at scale across the value chain improving time-to-market and productivity

Cost efficiencies and quality gains

Where do the cost efficiencies come from?

- Distribution/Channels/Service model: High
- IT & Operations: Medium
- Credit proc. & Prod.: Medium
- Key support functions: Medium

Increased efficiency
- Material reduction of costly f2f meetings by increasing remote meeting proportion from ~20% to >60%
- Reduction in advisor FTEs and Customer Service Officers aligned with branch reduction, enabled by digitalization and centralization

Increased customer satisfaction
- Streamlined and efficient service provision to mass market
- Freeing up time for more dedicated service to high-value customers allowing time for tailored solutions
Commercial & Business Banking

Key transformation initiatives

Digital disruption and future capabilities
- Payment Strategy is critical for Nordea’s ability to compete in a disrupted banking market
- Partnerships and co-creation models in a new market environment

Executing the Target Operating Model
- A more streamlined and efficient organisation
- Optimised portfolio size per advisor in order to serve customers more cost efficiently

Process efficiency gains
- Robotics (initial focus on KYC and Operations)
- Automation of processes and credit decisions
- Pre-approved limits
- “Nordea Free” (freeing up time for advisors)

Digital efficiency gains
- The ambition is to make the smallest customers (~500k) almost fully self-serviced
- Will be implemented through:
  - New Nordea Digital Corporate platform
  - Online on-boarding and online meetings
  - Online credit information gathering and digital signature

Cost efficiencies and quality gains

Where do the cost efficiencies come from?

- Distribution/Channels/Service model: High
- IT & Operations: Medium
- Credit proc. & Prod.: High
- Key support functions: Medium

Increased efficiency
- Freeing up time with frontline staff by eliminating or automating time consuming / less value adding process steps
- Reduced operational risk through improved consistency in credit assessment and decision making

Increased customer satisfaction
- Through faster response time of credit decisions and increased quality in advisory since larger part of preparation is automated
- Through introduction of new digital solutions and value added services
Wholesale Banking

Key transformation initiatives

Business strategy unchanged, #1 relationship bank in the Nordics
• Streamlined customer service
• Further explore digital channels and services

Re-positioning of Markets
• Implement new cross-Nordic operating model for Markets business with stronger customer ownership and clearly defined service and value offerings
• Cross-sell and capital markets financing

Operational excellence,
• Simplified IT infrastructure, robotics and near-shoring to Poland

Strengthened capital governance and risk management
• Increase capital velocity
• Consolidate SOO franchise and normalised loan losses

Cost efficiencies and quality gains

Where do the cost efficiencies come from?

- Distribution/Channels/Service model: High
- IT & Operations: High
- Credit proc. & Prod.: Medium
- Key support functions: Medium

Operational excellence,
• Simplified IT infrastructure, robotics and near-shoring to Poland

Improved customer satisfaction
• Client coverage: A more coordinated, dedicated and holistic approach to customer interaction
• Research: High uniform quality, easier and more transparent to deal with and utilise pan-Nordic capacity
Value proposition design and segmentation
• More focused service provision to private banking customers (provide right services to the right customers)
• Increased thresholds for different service levels
• Increased use of outsourcing services
• Ensure strong Nordic alignment and scale in service offerings

Optimised operations
• Global competence centre creations to increase cost efficiency but also improve quality
• Optimise the work between back-office, mid-office and front office support in Private Banking by centralising client on-boarding, reporting and routine services
• Accelerate implementation of robot process automatisation and cognitive robotics
• Productivity gains from rolling out Agile@scale in private banking

Cost efficiencies and quality gains

Where do the cost efficiencies come from?

<table>
<thead>
<tr>
<th>Distribution/Channels/Service model</th>
<th>High</th>
</tr>
</thead>
<tbody>
<tr>
<td>IT &amp; Operations</td>
<td>High</td>
</tr>
<tr>
<td>Credit proc. &amp; Prod.</td>
<td>Low</td>
</tr>
<tr>
<td>Key support functions</td>
<td>Low</td>
</tr>
</tbody>
</table>

Increased efficiency
• Improved cost to serve levels through more structured customer focus

Improved customer satisfaction
• More structured customer focus and optimised ways of working will support higher service levels for customers willing to pay
Group Functions

Key transformation initiatives

Streamlining Operations
• Increased automation of operations across all business (e.g. by increased use of robotics)
• Improve sourcing competencies including more demand/supply capabilities

Streamlining IT setup
• Align future workforce competences and locations to future needs (e.g. higher presence in Poland)
• Consolidate and reduce technology infrastructure complexity and applications
• Implement and integrate higher use of cloud

Streamlining Business Risk Management
• Implement optimised KYC operating model
• Streamline and optimise risk reporting and risk assessments

Consolidation key support functions on BA level
• Create globally consolidated support model per BA mainly driven by design to cost (move away from country/team focus and focus on shared pool of services)

Cost efficiencies and quality gains

Where do the cost efficiencies come from?

- Distribution/Channels/Service model: None
- IT & Operations: Very high
- Credit proc. & Prod.: Low
- Key support functions: Medium

Increased efficiency
• Insourcing of consultants
• Use of cloud services
• Decommissions

Improved service provision
• Faster and smarter end-to-end processes
• Less operational risk
• One way of working
• Freeing up time for more value-adding activities (also in customer facing units)
Executing on our transformational agenda will lead to a position of strength
