

## ePresentation

– improving your international trade

Speed up your export documentary credit (DC) document handling.

ePresentation enables you to present the documents under an export documentary credit in electronic form, thus giving your company a competitive edge by bringing you “next door” to Nordea and saving valuable time for both you and your buyer.

There are three different types of ePresentation to suit your particular need:

- Pre-presentation
- Remote print
- Direct presentation.

### Pre-presentation

Pre-presentation reduces the risk of losing time through having to send the original documents back and forth between you and Nordea for correction of discrepancies.

When you have prepared the documents, you simply mail or fax them to us. We examine the documents and when they are approved by us, you send the original documents to us by regular mail. We then send the documents to the issuing bank.

### Remote print

The basic idea is that you move your printer from your own premises to Nordea, i.e. you send your documents to us by e-mail and we print them. We examine and handle the e-mailed documents as if they had been received via regular mail.

### Direct presentation

This type of ePresentation not only reduces the number of days the documents take to reach the issuing bank, thereby facilitating faster presentation and payment, but also gives you full control over dispatch of the documents. It starts by you e-mailing copies of the documents to us. We examine the documents and when they are found to be in order or we agree on the discrepancies, we will send you a cover letter. You simply attach it to the original documents and then send the documents directly to the issuing bank.

### How it works

The documentary credit procedure, from the agreement with the buyer to the final payment having been made, is basically the same when ePresentation is used. ePresentation only differs in the phase when you present the documents to us. In the example below we describe the Direct presentation process.

When it is time to present the documents through Nordea you e-mail us the documents instead of sending them to us in paper form by regular mail (6). We will examine the e-mailed documents and when the documents are found in order we will send you our cover letter (6) which you attach to your documents and send directly to the issuing bank (7).

Contact us to find out more about how we can assist you with your trade finance transactions. You can also find us at [nordea.com/tradefinance](http://nordea.com/tradefinance).
