The Euromoney / ECBC Covered Bond Congress 2018, Munich

Disclaimer

This presentation contains forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance. Although Nordea believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of various factors.

Important factors that may cause such a difference for Nordea include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) change in interest rate and foreign exchange rate levels.

This presentation does not imply that Nordea has undertaken to revise these forward-looking statements, beyond what is required by applicable law or applicable stock exchange regulations if and when circumstances arise that will lead to changes compared to the date when these statements were provided.

Comments

- Collective provisions related to potential impacts of sanctions to Russia
- Write-backs in Nordic franchise
- Gross impairment rate (stage 3) also down

Planned acquisition of Gjensidige Bank – strategic partnership with Gjensidige Forsikring

Acquisition summary*

- Price NOK 5,500m**
- EUR 25m annualised cost synergies by 2022
- Rol ~16% by 2022

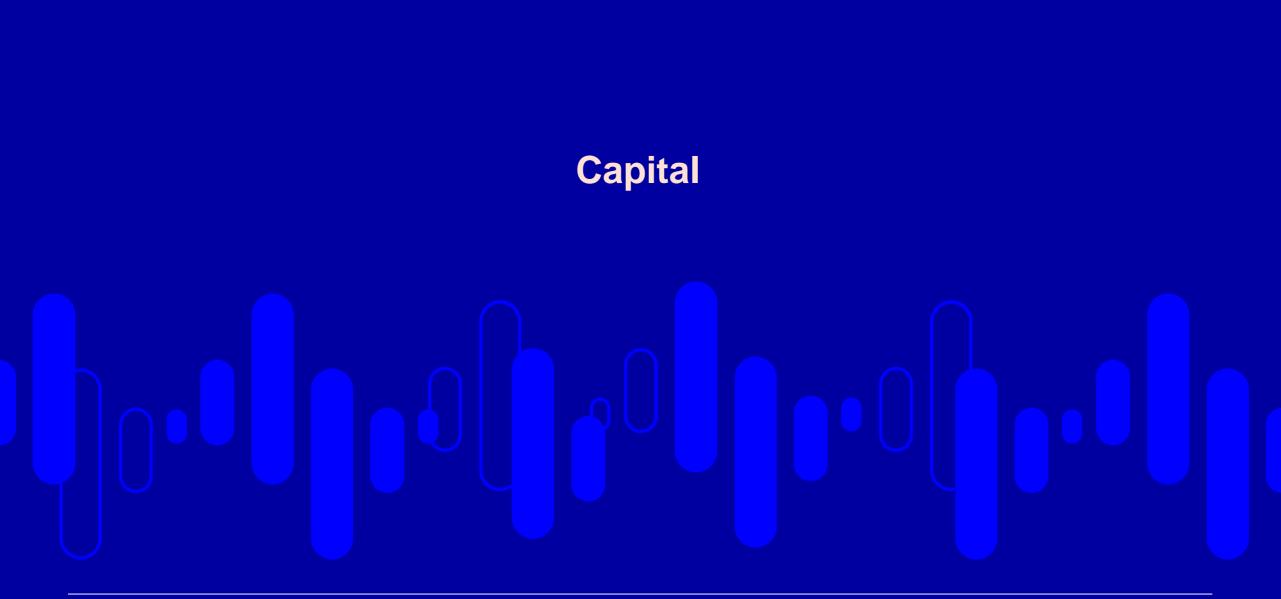

Rationale for the planned acquisition and partnership

- Strategy to grow in the Nordics
- Expand customer reach
- Both insurance and financing product offering via partnership

14 * Subject to regulatory and other approvals ** Adjusted for the equity generated by Gjensidige Bank until closing of the transaction

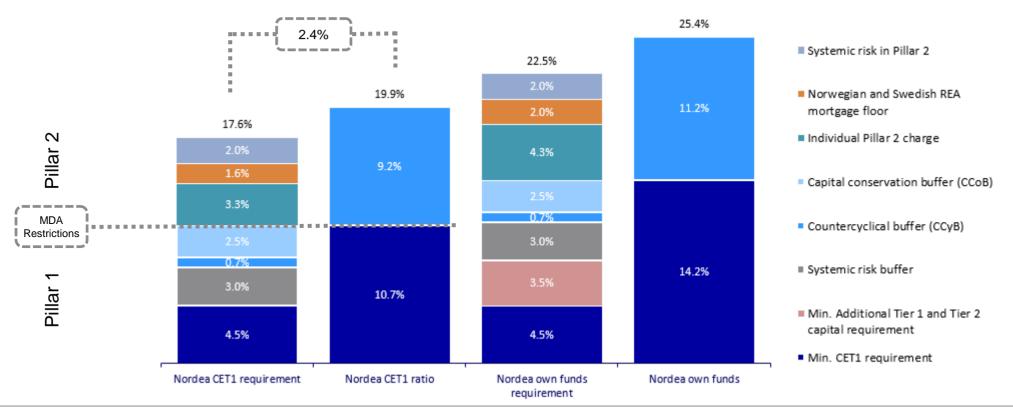

Nordea estimated CET1 and own funds requirement Q2 2018*

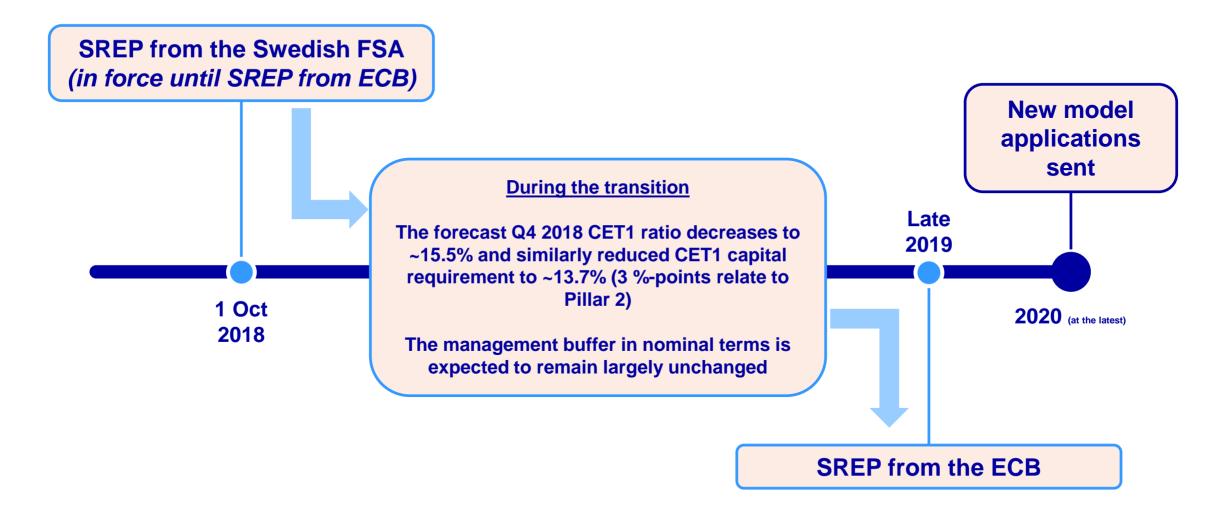

Comments

- As part of the re-domiciliation process, Nordea will migrate from the Swedish FSA framework to the harmonised ECB capital requirement's framework
- Nordea is currently in dialogue with the ECB to establish future capital requirements
- Finnish FSA has set Nordea's systemic risk buffer at 3% as of July 2019

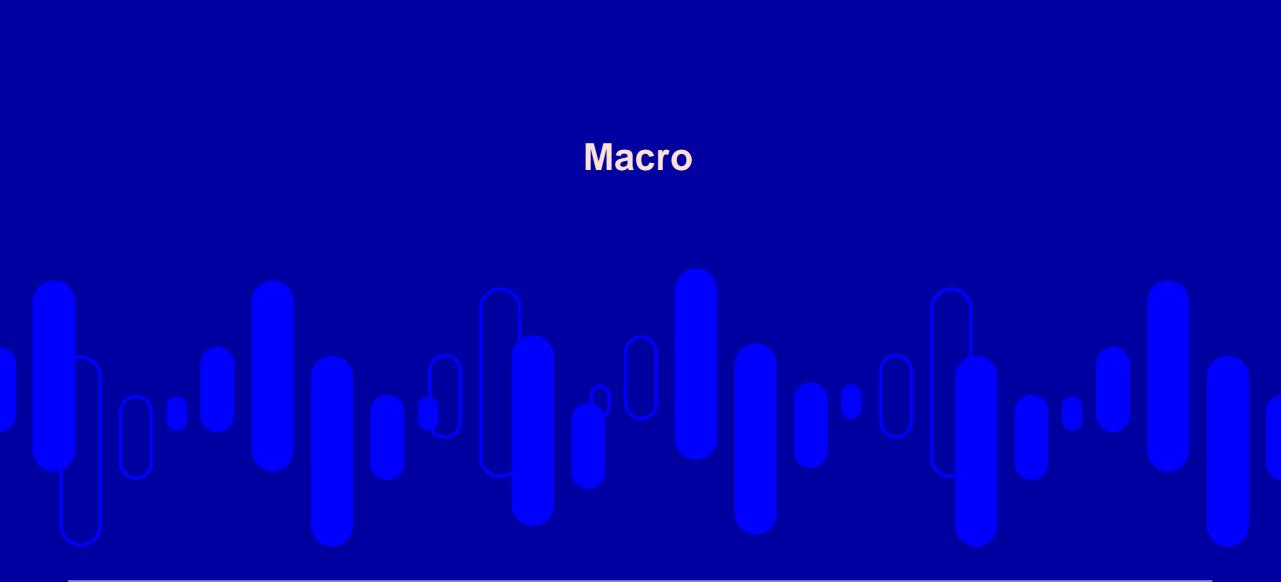

ECB has granted Nordea temporary permission for continued use of internal models

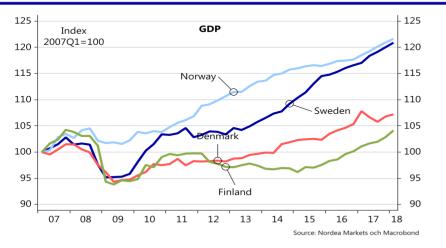

Nordea remains equally strongly capitalised. Nordea's capital and dividend policy remain unchanged. Nordea is committed to maintain its AA rating

Prospering Nordic economies

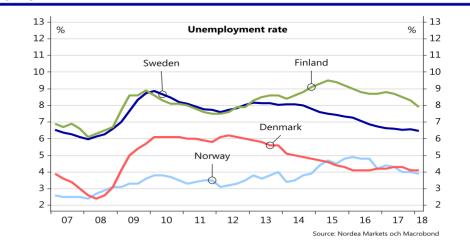

GDP development

Comments

- The Nordics are enjoying an economic tailwind. While the synchronized global recovery raise exports, the accommodative monetary polices support domestic demand
- Short-term survey indicators remain upbeat, which suggests growth will be held up in the near-term

Household debt remains high, but so is private and public savings

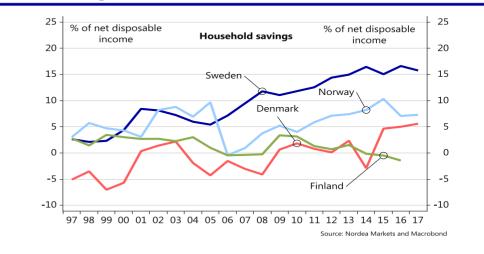

Household debt

Public balance/debt, % of GDP, 2018E

Household savings

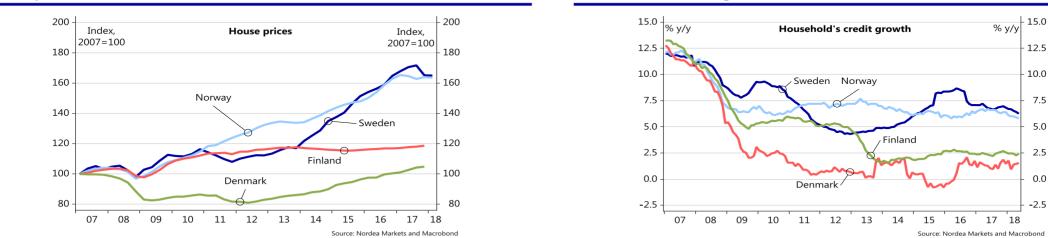

Comments

- In all countries, apart from Denmark, household debt continues to rise somewhat faster than income. Meanwhile, households' savings rates remain at high levels, apart from Finland where savings have declined somewhat in recent years
- The Nordic public finances are robust due to the overall economic recovery and relatively strict fiscal policies. Norway is in a class of its own due to oil revenues

House price development in the Nordics

Household's credit arowth

House prices

Comments

- Recent quarters have shown stabilisation in the Swedish and Norwegian housing markets, while prices continue to rise in Denmark and to some extent also in Finland
- In Sweden house prices declined during H2 2017 but the trend has levelled out in H1 2018, despite increased regulations which was
 expected to put downward pressure on house prices. The price correction is probably caused by the marked rise in new buildings
 seen in recent years. Going forward, largely stagnant prices are expected as mortgage rates are expected to stay low
- In Norway, primarily in Oslo, house prices turned down during 2017. The downturn was primarily driven by stricter lending requirements introduced 1 January 2017. However, prices have levelled out, and even increased somewhat in Oslo, in recent months. Largely unchanged prices are forecast ahead

Nordea

Summary of Nordea SNP, TLAC and MREL

Comments

- Nordea will ensure 2019 and 2022 TLAC compliance given the GSIB classification
- Nordea aims to use own funds and SNP to cover the minimum TLAC requirement once fully implemented in 2022
- MREL after re-domiciliation is pending, dependent on factors such as:
 - · Results from dialogue with the SRB and other authorities
 - Nordea's capital requirement components for MREL calibration to be decided by the ECB
 - Uncertain SNP need under future SRB MREL
- SNDO published in December 2017 Nordea's recapitalisation amount: 16.5% of REA (EUR 20bn), to be met with SNP from 2022

Repayment

Underwriting criteria

- Residential mortgage loans
 - Nordea's credit decision is based on the borrower's repayment capacity and collateral is always taken
 - · Collateral must be in the form of mortgages in real estate or in shares in housing companies
 - · Repayment ability of borrowers is calculated using stressed scenarios
 - Credit bureau check is always conducted (Suomen Asiakastieto)
 - · Individual valuation of property based on market value
 - Repayment schedules ranging from 20 to 35 years
- · Multi-family residential mortgage loans
 - Borrowers with strong EBITDA/debt and cash flow based on e.g. long-term high quality lease contracts and adequate interest rate hedging
 - Individual credit decision based on credit policy and rating
 - An evaluation of all property-related commitments is performed in the ordinary annual review against a background of quality issues/risk factors regarding the property itself, the lease, the management, the long-term cash flow and -strength of balance sheet/gearing. The analysis focuses on the repayment capacity
 - · Individual valuation of property based on market value

Finnish covered bond framework

- Legal framework
 - Finnish Covered Bond Act (statute 688/2010)
- Registration
 - Collateral assets remain on the balance sheet of the issuer
 - Covered bonds, collateral and relevant derivative contracts are entered in a separate register
- Limit on LTV ratio based on the current value
 - 70% for housing loans (residential property)
 - 60% for commercial loans (commercial property)
- Matching cover requirements
 - Total value of the cover pool must be greater than the aggregate outstanding principal amount of the covered bonds
 - Net present value of the cover pool must be at least 2% above the net present value of the liabilities under the covered bonds
- Liquidity requirements
 - Average maturity of the covered bonds must not exceed the average maturity of the loans entered in the register
 - Total amount of interest accrued from the cover pool assets, during any 12-month period, must be sufficient to cover the total amount payable under covered bonds and derivatives transactions during the same period

Finnish covered bond framework (2)

- Bankruptcy remoteness and preferential claim
 - Isolation of registered collateral assets, registered derivatives from all other assets and liabilities of the insolvent issuer
 - Holders of covered bonds together with counterparties of registered derivatives and bankruptcy liquidity loans in bankruptcy would rank pari passu and have a preferential claim to the cover pool (subject to a maximum LTV ratio of 70% for residential loans and 60% for commercial loans)
- Post-bankruptcy procedures
 - A bankruptcy administrator is appointed by the court (administration of estate) and a supervisor is appointed by the Finnish FSA (protection of covered bond creditors' rights)
 - The cover pool, derivatives and covered bonds to be kept separated from the bankruptcy estate as long as stipulated matching and liquidity requirements are met
 - Covered bond creditors and counterparties of registered derivatives would rank pari passu and have a preferential claim on the proceeds of the liquidation of the cover pool

Affordability

- · Customers ability to service its commitment out of its cash flow/income is critical
- Repayment ability of borrowers is calculated using stressed scenarios. Customers must manage 5 percentage points increase on interest rate on all debt
- Scoring of retail customers

Payment history

• Credit bureau check is always conducted. Potential external payment remarks are revealed

Collateral

- Information from Norwegian official property register in order to secure correct real estate ownership and priority
- Nordea accepts four sources of real estate valuations:
 - a) Written statement from external authorized valuer
 - b) Last sales price (within 6 months)
 - c) Use of external evaluating system "Eiendomsverdi" (used by most banks and real estate agents in Norway)
 - d) Written statement from (external) real estate agent

Norwegian covered bond framework

- Legal framework
 - Norwegian Financial Institutions Act (2007)
- Registration and independent inspector
 - A mortgage credit institution shall for each cover pool establish a register of loans, interest rate contracts and foreign exchange contracts, substitute assets and covered bonds
 - The institution shall put forward an independent inspector who shall be appointed by the FSA "Finanstilsynet"
- Limit on LTV ratio based on the current value
 - 75% for housing loans (residential property)
 - 60% for commercial loans (commercial property)
- Matching cover requirements
 - The value of the cover pool shall at all times exceed the value of covered bonds with a preferential claim over the pool and account shall be taken of the mortgage credit institution's derivative contracts
- Liquidity requirements
 - The mortgage credit institution shall ensure that the payment flows from the cover pool enable the mortgage credit institution to honour its payment obligations towards holders of covered bonds and counterparties to derivative contracts at any and all times
