X1. Key Concepts Explanation	General practice in Danish market	If issuers Key Concepts Explanation differs from general practice: State and explain in this column.
<b>2. Residential versus commercial mortgages</b>		
Description of the difference made between residential/owner occupied and commercial properties	<p>The Danish FSA sets guidelines for the grouping of properties in categories. The property type is determined by the primary use of the property.</p> <p>Property whose primary purpose is owner occupation is characterised as residential. Whereas properties primarily used for commercial purposes are classified as commercial (cf. below).</p>	
<p>Describe when you classify a property as commercial?</p> <p>E.g.: Private rental, Manufacturing and Manual Industries, Offices and Business, Agriculture.</p>	<p>The Danish FSA sets guidelines for the grouping of properties in categories. Below are some examples of properties classified as commercial by the Danish FSA:</p> <ul style="list-style-type: none"> <li>• Offices</li> <li>• Retail/shops</li> <li>• Warehouses</li> <li>• Restaurants, inns etc.</li> <li>• Hotels and resorts</li> <li>• Congress and conference centres.</li> <li>• Campsites.</li> <li>• Traffic terminals, service stations, fire stations, auction and export houses.</li> <li>• Agriculture</li> <li>• Forestry</li> <li>• Nurseries</li> <li>• Ships</li> </ul>	
<b>3. NPL (Non-performing loans)</b>		
Describe how you define NPLs	<p>A loan is categorised as non-performing when a borrower neglects a payment failing to pay instalments and / or interests.</p> <p>The NPL rate is calculated at different time periods after the original payment date. Standard in Table A is 90 day arrear.</p>	
Explain how you distinguish between performing and nonperforming loans in the cover pool?	No distinctions are made. Asset substitution is not allowed for specialised mortgage banks.	
<p>Are NPLs parts of eligible assets in cover pool?</p> <p>Are NPL parts of non eligible assets in cover pool?</p>	Asset substitution is not allowed for specialised mortgage banks, hence NPLs are part of the cover pool.	
Are loans in foreclosure procedure part of eligible assets in cover pool?	Asset substitution is not allowed for specialised mortgage banks, hence loans in foreclosure procedure are part of the cover pool.	
If NPL and/or loans in foreclosure procedure are part of the covered pool which provisions are made in respect of the value of these loans in the cover pool?	The Danish FSA set rules for loss provisioning. In case of objective evidence of impairment provisioning for loss must be made.	

<b>X2. Key Concepts Explanation</b>	<b>Issuer specific (N/A for some issuers)</b>
<b>4. Guaranteed loans (if part of the cover pool)</b>	
How are the loans guaranteed?	Loans to customers are covered by a "first loss" guarantee amounting to 10 or 25 per cent of original loan amount and a duration of either 5 or 10 years depending on the property category. All loans to owner occupied homes are backed by a 25 per cent guarantee during the first 5 years.
Please provide details of guarantors	All loan guarantees are provided by Nordea Bank Danmark A/S
<b>5. Loan-to-Value (LTV)</b>	
Describe the method on which your LTV calculation is based	LTVs are calculated as: (Prior deeds plus Nordea Kredit loans at fair value)/the market value of the property. LTVs are calculated for each loan.
Frequency of real estate valuation for the purpose of calculating the LTV	Property values are updated on an on-going basis to take most recent market developments into account
Describe your valuation techniques	Nordea Kredit observes valuation guidelines laid down in an executive order of the Danish FSA. For the purpose of LTV monitoring Nordea Kredit uses statistical models approved by the Danish FSA.
<b>6. Rating</b>	
Describe your current stand-alone ratings and recent rating history on <u>issuer level</u>	Nordea Kredit does not have a public stand alone rating. For the past almost 10 years all covered bonds issued by Nordea Kredit have received an Aaa and an AAA rating from Moody's and Standard & Poor's, respectively.
