MORTGAGE CREDIT BONDS (Capital Centre 1) &

COVERED MORTGAGE CREDIT BONDS (Capital Centre 2)

ISSUED BY

NORDEA KREDIT REALKREDITAKTIESELSKAB

("Nordea Kredit")

These final terms (the "**Final Terms**") apply to bonds issued by Nordea Kredit under Nordea Kredit's base prospectus dated 21 December 2023 and any prospectus supplements to this base prospectus (collectively the "**Base Prospectus**") in ISIN codes opened after the date of the Base Prospectus. The Final Terms solely relate to the ISIN codes set out in the tables below (the "**Bonds**").

Nordea Kredit hereby declares that:

- The Final Terms have been prepared in accordance with the Prospectus Regulation and must be read in conjunction with the Base Prospectus.
- The Base Prospectus has been published electronically on Nordea Kredit's website <u>www.nordeakredit.dk</u>, on the Danish FSA's website <u>www.finanstilsynet.dk</u> as well as on the website of Nasdaq Copenhagen A/S <u>www.nasdaqomxnordic.com</u>.
- For the full information investors must read the Base Prospectus as well as the Final Terms.
- The summary for this specific issue is attached as an appendix to these Final Terms.

MIFID II PRODUCT GOVERNANCE

THE TARGET MARKET OF THE BONDS IS RETAIL CLIENTS, PROFESSIONAL CLIENTS AND ELIGIBLE COUNTERPARTIES – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Bonds has led to the conclusion that: (i) the target market for the Bonds solely consists of eligible counterparties, professional clients and retail clients as defined in Directive 2014/65/EU ("MiFID II"); and (ii) all channels for distribution are appropriate. Any person subsequently offering, selling or recommending the Bonds (a "Distributor") should take into consideration the manufacturer's target market assessment; However, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels subject to the Distributor's suitability and appropriateness test under MiFID II, if relevant.

Bonds subject to provisions on regulation of refinancing risk:	The Bonds may be subject to the provisions on regulation of re- financing risk. If that is the case, this will be indicated in Ta- ble 2 below. More detailed terms may furthermore be specified in a note to the table.
Information about where the past performance of the money market rate underly- ing the reference rate can be found:	Information on the historical development of money market rates is available at the webpage of the Danish Financial Benchmark Facility <u>www.dfbf.dk</u> .
Bonds subject to provisions set by Nordea Green Bond Framework	In Table 2 these Bonds will be marked with a "G" in the Bond type column.
Yield:	The method for calculation of the yield is described in chapter 6 item 4.10 of the Base Prospectus.

Negative interest:	If the interest rate of a Bond can become negative, this is set out in Table 2 below.
Accrued interest:	Investors pay accrued interest for the period from the latest in- terest payment date until the date of acquisition, see, however, item 4.8 in chapter 6 for conditions in case of negative interest rates.
Market-making agreements:	Nordea Kredit has not entered into any agreement with any en- tity concerning market making in the Bonds.
Information about prices and outstanding volume of Bonds:	Prices and the outstanding volume of Bonds will be announced on a current basis on the website of Nasdaq Copenhagen A/S: <u>www.nasdaqomxnordic.com</u> .
Conflicts of interest:	Nordea Kredit is not aware of any conflicts of interest which are material to Nordea Kredit in connection with the offer of the Bonds.

The Bonds have fixed rates and are callable.

Fixed Rate Callable Mortgage Credit Bonds issued in capital centre 1 (RO) and Fixed Rate Callable Covered Mortgage Credit Bonds issued in capital centre 2 (SDRO).

		 Nordea Kredit has identified the following types of risks: credit risk Credit risk is defined as the potential for loss due to the inability of customers to repay their loans. Nordea Kredit considers the probability of massive losses on debtors as low. But such massive losses would have a material impact on Nordea Kredit's financial status dependency on the Bank Nordea Kredit is highly dependent on the Bank and the Nordea Group. Customer contact, IT systems as well as certain staff functions are operated jointly by the Nordea Group and Nordea Kredit. Nordea Kredit currently finds that the probability of serious risk issues occurring from this dependency is low. liquidity, funding and capital risk Nordea Kredit defines liquidity and funding risk as the risk that Nordea Kredit defines liquidity commitments at an unsustainably high price or ultimately is unable to meet its obligations as they come due. Considering Nordea Kredit's application of the specific balance principle and the soft bullet structure on refinancing, Nordea Kredit currently assessed as low. Nordea Kredit defines capital risk as the risk of insufficient capital to meet internal and external capital risk as the risk of insufficient capital to meet internal and external capital risk is of losses due to inappropriate or inadequate internal procedures, human or system errors as well as external events. The risk of such operational risks is considered as low but it is not possible to estimate the potential impact or probability with a satisfactory degree of accuracy. risks related to the use of risk models risks related to the implementation of new legislation This is the risk of loga changes which might affect Nordea Kredit 's business model. The risk of losses due to changes in accordance with legislation affecting Nordea Kredit 's business model. The risk of losses due to changes in the market value of Nordea Kredit 's business model. The risk of los

	rities?	Bonds that can be issued:
	11105:	Donas mar can de issued.
		- ROs and SDROs issued to finance mortgage credit loans

		The tables in the final terms contain supplementary information on both new and existing ISINs.
		Interest rate Interest – [at a variable rate / at a fixed rate] - is payable on the Bonds until re- demption. Both redemption and interest terms may be changed as a consequence of the provisions on regulation of the refinancing risk in the Danish Mortgage- Credit Loans and Mortgage-Credit Bonds etc Act.
		The interest rate terms of the Bonds are further specified in the Final Terms tables above.
		Currency The Bonds will be denominated in Danish kroner (DKK), euro (EUR) or another currency. The currency of the new ISINs is stated above and in the Final Terms ta- bles above.
		Restrictions on the free transferability of the securities The Bonds are freely transferable during as well as after the opening period except for certain selling and dealing restrictions, including on the offer, sale and distribution within the United States or to US persons.
		The distribution of the Base Prospectus and the offer or sale of the Bonds in cer- tain jurisdictions may be restricted by law. Nordea Kredit presumes that persons who come into possession of the Base Prospectus will obtain information on and observe all such restrictions.
		If a financial intermediary uses the Base Prospectus to make an offer of the Bonds, the financial intermediary will provide information on the terms and conditions of the offer at the time the offer is made
		Rights attached to the securities The Bonds are non-callable by the Bondholders throughout the life of the Bonds.
		In the event of Nordea Kredit's restructuring or resolution in accordance with directive (EU) 59/2014, the Bondholders have a preferential position in the capital centre out of which the relevant bonds are issued.
		In the event of Nordea Kredit's bankruptcy, the Bondholders have a preferential position in the capital centre out of which the relevant bonds are issued. In the event that the capital centre does not have sufficient assets to compensate the Bondholders, the outstanding claim carries a preferential right to the institution's general reserves.
		In the event of bankruptcy, the normal payments to the Bondholders will as far as possible be continued prior to the final settlement of the bankruptcy estate in ac- cordance with the provisions of the Danish Mortgage-Credit Loans and Mortgage- Credit Bonds etc Act.
		Claims for payment of interest are time-barred three years after the due date of payment and claims for payment of the principal are time-barred ten years after the due date of payment in accordance with the Danish Limitation Act.
3.2	Where will the secu- rities be traded?	There is no investor representation for the Bondholders. Nordea Kredit will apply for admission of the Bonds issued under the Base Pro- spectus to trading and official listing on Nasdaq Copenhagen A/S which is a regu- lated market in Denmark. Nordea Kredit may decide to apply for admission to

		trading and official listing on other regulated markets. This will be stated in a sup- plementary prospectus.
3.4		Investment in Bonds is associated with a number of risks, including the following:
	What are the key risks that are specific to the securities?	 Loss of SDRO status Risk of losses following the Bonds' loss of SDRO status. Nordea Kredit currently considers itself adequately capitalised to meet relevant capital requirements why this risk currently is considered low. Non-compliance with the specific balance principle If Nordea Kredit is unable to comply with the specific balance principle Nordea Kredit may lose its license to issue Bonds which may influence the price of the Bonds unfavourably for Bondholders. This risk is currently considered low. Ratings do not necessarily reflect all risks and may be downgraded This is the risk of changes to the rating could significantly affect the prices of the Bonds unfavourably for the Bondholders. This risk is currently considered low. Early redemption of Bonds This is the risk of borrowers prepaying their mortgage loans exposing the Bondholders to prepayment risk meaning that the Bondholders may have to reinvest at a lower interest rate. The feature is known by the market and to a large degree is part of the pricing of the bonds. Risks related to the market – interest volatility This is the risk of changes in market interest rates and market developments in general that may affect the price of the Bondholders. The development of interest rates and market conditions is unpredictable why it is not possible to determine the probability of negative effects for the Bondholders. Discontinuation of or changes to reference rates This is the risk of lock of or reduced liquidity in the market following the issuance of Bonds so that Bondholders may be unable to sell their Bonds with ease or only at unfavourable prices. This risk is currently considered low. Liquidity in the secondary market This is the risk of alack of or reduced liquidity in the market following the issuance of Bonds so that Bondholders may
