## 1 Purpose of this document

This document provides the user of the Nordea Group's (hereinafter also referred to as "Nordea") Corporate eGateway with a list of the cut-off times used by Nordea's Message Centre as well as the local cut-off for each service and country that are part of Corporate eGateway. It also describes the effective date applied for each booking within the Executing Banks and expected availability at the beneficiary's bank.

The terms and definitions used in this document are defined in the separate document *Glossary for Corporate eGateway*.

## 2 Definitions for payments and authorisations

There are two different types of cut-off times listed in this document: the Corporate eGateway Cut-off times and the Local Cut-off times. In order to ensure timely and accurate processing of the payment or other instructions within the Corporate eGateway services the Customer must transmit Messages to Nordea's Message Centre in accordance with the Corporate eGateway Cut-off times. The Local Cut-off time specifies the cut-off time for each country/currency. The payment instruction and other Message types must reach the Message Centre no later than **60 minutes** before the local cut-off time in order to meet the respective cut-off times, providing that the payment order contains all information necessary for execution. Special cut-off times apply for reduced working days, see chapter 11.

Please be aware that the Message Centre will not reject payments in relation to any cut-off time, however, the Message Centre will perform validation for some payment types and reject payments due to content errors (please see Functional Specification documents). Each local Executing Bank will validate the content and cut-off time on payment types not validated by the Message Centre. The Message Centre never rejects Authorisation Messages– this is done only by the relevant Executing Bank, see *Functional Specification for Nordea Direct Debits*.

If the Message Centre receives the Customer's Messages after the Corporate eGateway Cut-off time, Nordea is not responsible for processing the instructions in Corporate eGateway in such a way that they can be carried out in the Executing Banks in accordance with the Local Cut-off times. However, if the Message Centre receives the instructions after the Corporate eGateway Cut-off time the Executing Bank retains the right to carry out the instructions according to Local Cut-off times, if possible.

## 3 Definitions for Direct Debit

Please be aware that the cut-off time stipulated in this document for Direct Debit is the actual cut-off time used by the Message Centre. This means that the Message Centre rejects any Direct Debit messages that are delivered after the stipulated cut-off time.

## **4 Delivery times – Messages from the Message Centre.**

The cut-off time indicated for XML ISO20022 messages such as pain.002, pain.012, camt.029, camt.054 or camt.053, represents the delivery times from the Message Centre.

## **5 Definitions for payment days, debit account and available to beneficiary**

In this Cut-off Times List the following terms will be used:

“The Corporate eGateway Cut-off time”: The time a Message should be received by the Message Centre in order to meet the Local Cut-off time as set by each Executing Bank.

The column “Debit account” describes when the Executing Bank will book the payment instruction in relation to the requested Payment day and “Available to beneficiary bank”.

The column “Available to beneficiary bank” includes information concerning when the payment amount is made available to the beneficiary’s bank.

The following explanations apply:

Day -1 = The Business Day prior to the Payment day  
Day 0 = The Payment day  
Day +1 = The Business Day after the Payment day

## **6 Time definition used by Corporate eGateway**

All hours are defined as Central European Time (CET). Please be aware of the time difference between Finland, United States (EST) and Great Britain compared to the other Nordea countries, i.e. Denmark, Norway and Sweden where CET involves no time difference. The time difference for Finland is CET +1 hour, for United States (EST) it is CET -6 hours, whilst for Great Britain it is CET–1 hour.

## 7 Domestic & International payments (pain.001)

Cut-off times for interchange between the Customer, the Message Centre at Nordea, and the local Nordea Bank.

<sup>7</sup> Only rejected direct debit instructions will be reported from the Message Centre and/or the ACH.

<sup>8</sup> The type of status Message reply for pain.009/pain.011 Message is dependent on the reason of rejection.

<sup>9</sup> Note: pain.009, pain.011 service can only be used for Denmark and Sweden.

## 9.3 Status report (pain.002) on payment day

The status report (pain.002) reflects the response that the customer receives in return for the actual requested payment date regarding a payment initiation (pain.001) or Direct Debit (pain.008) message. For some countries the status report is also created if insufficient funds are detected on payment day.

No status report message is available from Nordea Bank in USA. Telephone or e-mail will be the means of communication in case of insufficient funds.

<b>From the Message Centre to Customer</b>	<b>Message type pain.002 for pain.001</b>	<b>Corporate eGateway cut-off time (CET)</b>	<b>Reflecting requested payment date</b>
