

Corporate Netbank Cash Management services

Tariffs for payments effected in Denmark from 1 March 2020

About the Tariff

This tariff contains prices for payments ordered via Corporate Netbank. All charges are in Danish kroner. The charges for services relating to payment accounts maintained in other currencies are converted at the exchange rate applicable on the date of the debit entry, see condition 4.1 of *Terms and conditions for payment accounts for corporate customers*.

If a cut-off time is stated for ordering payments etc, it means that the business day concerning the relevant payment service ends at the time stated. See also the tariff for international payments to corporate customers and the tariff for domestic payments to corporate customers.

Definitions

Execution time is the number of days it takes to effect a payment transaction. Days means business days, that is, the period within which it is possible to effect or receive a payment transaction. Business days in Nordea and other banks are not necessarily identical. Day 0 means business day (see, however, the below section on international bank holidays).

EEA countries are the EU countries and the EFTA countries Norway, Liechtenstein and Iceland.

EEA currencies are EUR, DKK and other national EU currencies (BGN, CZK, GBP, HRK, HUF, PLN, RON, SEK) and national currencies in the EFTA countries Norway, Liechtenstein and Iceland (NOK, CHF, ISK).

Nordea currencies

DKK, EUR, GBP, NOK, PLN, SEK, SGD and USD.

International bank holidays

When outward international payments are given value, allowance is made for international bank holidays in both the remitter's and the beneficiary's country as well as settlement/value dating in foreign exchange markets. International bank holidays appear from nordea.dk/bankhelligdage.

IBOS-only

For certain countries a so-called IBAN-only principle applies. This principle implies that the beneficiary's bank is identified through the IBAN of the beneficiary. Nordea will derive all the needed information on the beneficiary's bank from the IBAN. If you include any information on the beneficiary's bank, such as a BIC or name and address in a payment instruction, even if it is not needed, Nordea will ignore this information and use the information that can be derived from the IBAN instead.

Read more on the IBAN-only principle, and for which counties it applies, on nordea.dk/iban.

-
- (5) Is ordered as an ordinary transfer and must contain the correct BIC (Bank Identifier Code) of the beneficiary's Nordea unit. For countries where the so-called IBAN-only principle applies, only the IBAN is to be given (read more on nordea.dk/iban).
 - (6) For currencies with the value date day 2 the charge is without an addition of 0.05 %. See more information at nordea.com.
 - (7) EU Payments are ordered as an ordinary transfer. The instruction must be for EUR to a beneficiary's bank in another EU member state, Norway, Iceland or Liechtenstein. The instruction must contain the beneficiary's IBAN (International Bank Account Number). The remitter pays Nordea's charges while the beneficiary pays the receiving bank's charges.
 - (8) Financial Payment is a type of payment specifically developed for settling foreign currency transactions, payment of fixed deposits or other financial transactions without a commercial background where the beneficiary is a bank or another financial institution. Special access is required to this type of payment.
 - (9) See information regarding currency conversion on page 3.
 - # The instruction must contain the correct BIC and/or bank code (see exceptions below). If both are filled in, they must both be correct and match. Otherwise, a correction fee of DKK 150 is charged. For Nordea Intercompany Payment, however, only DKK 15 is charged.
For some countries both IBAN and BIC are mandatory. If a payment instruction does not meet this requirement, it will be rejected.

For some of the countries, where IBAN is mandatory, an additional IBAN-only principle applies. This principle implies that the beneficiary's bank is identified through the IBAN. Nordea will automatically derive all needed information on the beneficiary's bank from the IBAN. If a payment instruction contains information on the beneficiary's bank, even if it is not needed, Nordea will ignore this information and use the information which can be derived from the IBAN instead.
