## DISCLAIMER

If the reference assets are equities or equity baskets the issuer may due to market disruption or extraordinary event, at its sole discretion, make adjustments in the composition of the assets and the calculation of the yield or value of notes or replace one reference asset with another reference asset, to the extent that the issuer deems necessary in order for the calculation of the yield or value of notes to, in the issuer's opinion, reflect the manner in which yield or value was previously calculated. It may be that the issuer believes that such adjustments cannot procure a fair result, in which case the issuer may make the calculation of yield prematurely and determine the redemption amount, additional amount or the yield. Interest on the principal amount shall thereafter accrue at the market rate of interest. If the reference assets are indices the sponsor of the index can add, delete, substitute components or make methodological changes that could affect the level of such index and hence the return that is payable to investors in the notes. Additionally if the reference entities of credit-linked notes are comprising in any index, the Issuer may reflect changes of such index in the notes.
