Disclaimer

This presentation contains forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance. Although Nordea believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of various factors.

Important factors that may cause such a difference for Nordea include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) change in interest rate and foreign exchange rate levels.

This presentation does not imply that Nordea has undertaken to revise these forward-looking statements, beyond what is required by applicable law or applicable stock exchange regulations if and when circumstances arise that will lead to changes compared to the date when these statements were provided.

TOTAL NET LOAN LOSSES, EURm

IMPAIRED LOANS, EURm

COMMENTS

- Loan losses at 17 bps
- Solid credit quality with low negative migration
- Impaired loans ratio increased from 145bps to 162bps
 - Increase is mainly in household portfolio as an outcome of a new collective provision model and aligned reporting practice.
 - The overall quality of the portfolio has not deteriorated
- Deteriorated market environment has weakened the general credit quality in sub-portfolios with strong commodity price connection:
 - Oil & Gas, Offshore & Oil services, EUR 6.3bn, <2% of total exposure (exposure at default)
 - Russia EUR 5.5bn, 1% of total exposure (exposure at default)
- Total loan loss level expected to stay within long term loan loss average of 16 bps during the coming quarters

REA is down EUR 3.4bn to EUR 143.3bn

RETURN ON EQUITY DEVELOPMENT, %

* Includes FX effect from OCI

Nordea expects to operate the bank with a CET 1 ratio of approximately 16.5% during 2016

COMMON EQUITY TIER 1 RATIO BUILD-UP, %

1) Maximum Distributable Amount, provided for illustrative purposes only. The Swedish FSA does not normally intend to make a formal decision on the capital requirement under Pillar 2. "Insofar that a formal decision has not been made, the capital requirement under Pillar 2 does not affect the level at which the automatic restrictions on distributions linked to the combined buffer requirement come into effect." Swedish FSA, Sep 2014

2) The combined buffer consists of 3% systemic risk buffer, 2.5% capital conservation buffer and ~0.5% countercyclical buffer. The calculation of the countercyclical buffer is based on increasing Swedish and Norwegian buffer rates from 1 to 1.5%, which will enter into force in Q2 2016.

Proposed dividend of EUR 0.64

DIVIDENDS, EUR/SHARE

New dividend policy

Capital policy

”Nordea’s capital policy to maintain a management buffer of 50-150bps above the capital requirement remains unchanged.”

Dividend policy

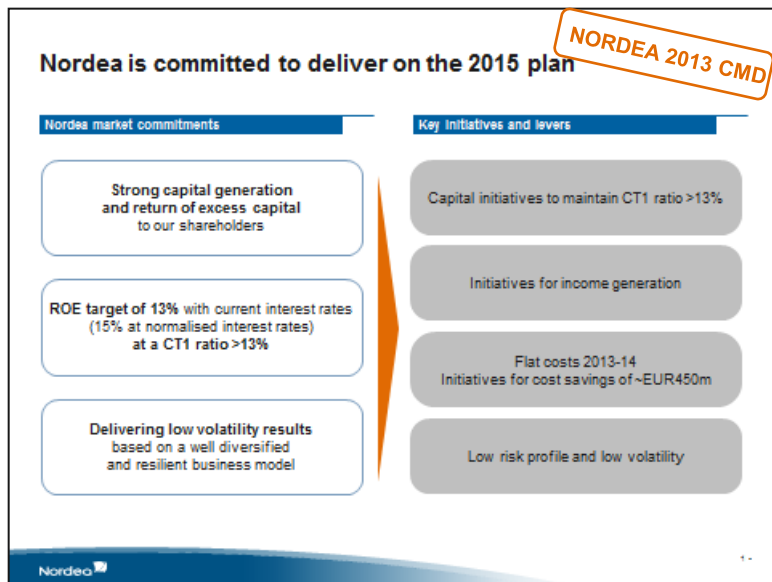

“Nordea strives to maintain a strong capital position in line with Nordea’s capital policy. The ambition is to achieve a yearly increase in the dividend per share”.
