1 Description of the processes used to manage the risk of excessive leverage

Nordea has policies and processes in place for the identification, management and monitoring of the excessive leverage. The leverage ratio is also part of Nordea's risk appetite framework

2 Description of the factors that had an impact on the leverage Ratio during the period to which the disclosed leverage ratio refers

Q4-Q4

The leverage ratio decreased from 10.6% in Q4 2018 to 7% in Q4 2019.

The decrease of leverage ratio was mainly driven by a huge increase in on-balance exposures.
