IMPLEMENTATION OF THE EQUATOR PRINCIPLES

Nordea's EP implementation reporting is available at: https://www.nordea.com/en/sustainability/sustainability-at-nordea/commitments-and-policies/, and https://www.nordea.com/en/sustainability/reporting/analyst-faq/#faq=Frequently-asked-questions-by-SRI-analysts (under "Business behavior", "How does Nordea ensure compliance with agreed commitments?", and "How does Nordea ensure responsible lending within project financing?").

The Equator Principles (EPs) is a risk management framework, adopted by financial institutions, for determining, assessing and managing environmental and social risk in projects. It is primarily intended to provide a minimum standard for due diligence and monitoring to support responsible risk decision-making.

The EPs apply globally, to all industry sectors and to four financial products: 1) Project Finance Advisory Services, 2) Project Finance, 3) Project-Related Corporate Loans, and 4) Bridge Loans. The relevant thresholds and criteria for application is described in detail in the Scope section of the EPs.
