| | | Harmonised Transparency Template - Frequently Asked Questions |
|--------|----------------------|---|
| Gene | eral Questions | |
| Questi | ion 1: What is the | structure of the Harmonised Transparency Template (HTT)? |
| | Response 1 | The HTT contains 5 main worksheets (A, B1, B2, B3 and C). The first worksheet (A) includes the HTT general information. The second worksheet (B1) presents the mortgage information. The third worksheet (B2) contains the public sector information. The fourth worksheet (B3) contains shipping information. The fifth worksheet (C) represents the HTT glossary, which has a harmonised section across jurisdictionsat the top, but also a section for national specificities below. Any additional tabs (D, E, etc.), will contain the National Transparency Template (NTT) information where relevant. |
| Questi | ion 2: Is the HTT go | ing to replace the National Transparency Template (NTT)? |
| | Response 2 | If a jurisdiction wishes to only use the HTT, it can do so. Otherwise, the HTT will be an add-on to the existing NTT. While the HTT is based on an international agreement, the NTT section will remain under the discretion of the jurisdiction. |
| Questi | ion 3: What is the | reporting frequency of the HTT? |
| | Response 3 | The reporting of the HTT is the same as the reporting of the National Transparency Template (NTT), i.e. at least quarterly. |
| Questi | ion 4: Where shou | ld the HTT be posted? |
| | Response 4 | The HTT should be posted in the same location as the National Transparency Template (NTT) is currently posted, i.e. on the issuer's website. There is no common platform for the HTT. |
| Questi | ion 5: In what forn | nat the HTT should be disclosed? |
| | Response 5 | The HTT should be disclosed in Excel format in so far as it is possible, as already suggested by the Label Advisory Council and investors. Where issuers are currently providing the Template in both Excel and PDF formats, they are encouraged to continue to do so. |
| Questi | ion 6: Where can I | find the reporting date? |
| | Response 6 | The reporting date can be found in the Introduction Tab and in the "Basic Facts" section of worksheet A. |
| Questi | ion 7: What happe | ns when I cannot complete a section of the HTT? |
| | Response 7 | When the information is either (i) not applicable for the jurisdiction, (ii) not relevant for the issuer and/or CB programme at the present time; or (iii) not available at the present time; issuers are kindly requested to include ND1, ND2 or ND3 respectively. |
| Speci | ific Questions | |
| Questi | ion 8: Does the Ha | rmonised Transparency Template only contain disaggregated information for mortgages and public sector? |
| | Response 8 | Indeed, the HTT only provides disaggregated information for mortgage and public sector assets which represent 99.6% of total outstanding. Information in more detail on other collateral types can always be included in worksheet E, which may contains the National Transparency Template (NTT). |
| Questi | ion 9: How should | the "liquid assets" be calculated in the section 3 "General Cover Pool / Covered Bond Information" of the HTT? |
| | Response 9 | Liquid assets are defined as central bank eligible assets, substitute and other marketable assets. This total is calculated over both outstanding covered bonds and outstanding covered assets. |
| Questi | ion 10: How should | t the "expected" and "contratual" columns of the "Cover pool amortisation profile" be understood? |
| | Response 10 | Contractual maturities assume no prepayment scenario unlike expected maturities. Jurisdictions/issuers publishing the two should disclosed their prepayment assumptions for the latter. |
| Questi | ion 11: How should | t the hedging columns included in section 3 "General Cover Pool / Covered Bond Information" of the HTT be understood? |
| | Response 11 | The currency breakdown before/after hedging aims to assess the potential currency mismatch on the asset and liability sides. This is supplemented by explanations on the issuer's hedging strategy in the Harmonised Glossary. |

The issuer believes that, at the time of its issuance and based on transparency data made publicly available by the issuer, these covered bonds would satisfy the eligibility criteria for Article 129(7) of the Capital Requirements Regulation (EU) 648/2012. It should be noted, however, that whether or not exposures in the form of covered bonds are eligible to preferential treatment under Regulation (EU) 648/2012 is ultimately a matter to be determined by a relevant investor institution and its relevant supervisory authority and the issuer does not accept any responsibility in this regard.

SECTION A. INVESTOR T&Cs

1. DIRECTORY SERVICES

The Site is intended to provide you with certain information from Issuers regarding the self-certification of their Products as labelled covered bonds. Inclusion of Product Information in the directory on the Site does not constitute a warranty or representation by us that the Product is a covered bond product or complies with any particular criteria or regulations.

Completion of the relevant self-certification automated process by the Issuer will lead to the grant of the Covered Bond Label. The grant of such label is entirely within the control of the relevant Issuer, and we do not independently verify whether such Issuer complies with the relevant criteria. The existence of a Covered Bond Label does not represent any opinion by us about the creditworthiness of a Product, the value or price of a Product, the appropriateness of a Product's terms, or the Product's future investment performance. Nothing contained on this Site is intended to predict or project future performance.

We make no representation that the Products which are featured on the Site are suitable for you and we disclaim all liability and responsibility arising from any reliance placed on any Product Information or on the Covered Bond Label by any visitor to the Site, or by anyone who may be informed of any of its contents.

| Describe when you classify a property as commercial? | Property which primary purpose is owner occupation is characterised as residential. Whereas properties primarily used for commercial purposes are classified as commercial (cf. below). The Danish FSA sets guidelines for the grouping of property in categories. | Loan-to-Value (LTV) | Legal framework for valuation and LTV-calculation follow the rules of the Danish FSA - Bekendtggrelse nr. 687 af 20. juni 2007 The publication contains two different ways to monitor LTV. One where loans are distributed continuously and one where they are |
| | distributed discretely. In both tables the fair value of the loans are distributed into predefined LTV bracket intervals. Table M4a/b4a and M4b/B4b displays the loan continuously. Table M4c/B4c and M4d/B4d displays the loans discretely. |
| Describe the method on which your l | The continuous table(M4a/b4a and M4b/84b) distributes the loans from the start itv of the loan to the marginal itv. This means that, if the loan is first rank, it is distributed proportionally by bracket size from 0 to the marginal itv into the predefined brackets. If the loans has prior TV liens, it is distributed from the marginal itv of the prior liens to the marginal itv of the loan under consideration. |
| | The discrete table (M4c/b4c and M4d/84d) distributes the total fair value of each loan into a single Itv bracket, according to the marginal Itv of the loan under consideration. Average LTV is weighted by loan balance categorised by property type. |
| | Example 1a below shows a case where the loan is first rank and distributed continuously. Example 1b shows the case where the loans has prior liens and distributed continuously. Example 2 below shows the discrete distribution of a loan. |

| General explanation | General practice in Danish market | The issuer can elaborate on the applied balance priciple. |
|----------------------------|--|---|
| Table G3 | | E.g. describe if stricter pratice is applied than required by law |
| General balance principle | The general balance principle does not require a one-to-one balance between the loan and the bonds issued. This gives the credit institution a wider scope for taking liquidity risk than the more strict specific balance principle. | |
| Specific balance principle | The specific balance principle ensures a one-to-one balance between loans and bonds issued, and is used for the issuance of SDRO, SDO and RO bonds. The specific balance principle de facto implies full cash flow pass through from borrowers to investors. Under this principle daily loan origination is continuously tapped into the market, and the individual borrower loan rate is determined interctly by the bond sales price for the corresponding financing amount of bonds. All borrower payments of interest and principal payments to investors exactly (borrower payments fall due one day prior to the payments to investors.) Redemptions take place by borrowers' buy back of the financing bond in the market at market price, or (for callable bonds) by calling the bond at par. In the latter case the borrower prepayment match the bond draw down. Market risks are thus eliminated under this issuance model (i.e. interest rate risk, prepayment risks, liquidity risks and funding risks). Further, asset substitution is not possible under this issuance model. | |

|--|---|--|
| Table G4 | | |
| One-to-one balance between terms of granted loans and bonds issued, i.e. daily tap issuance? | Mortgage banks issue and sell bonds to investors, who then fund the loans. During the loan terms, borrowers make principal and interest payments to mortgage banks which transfer the amounts to investors. Mortgage banks charge a margin from the borrower to cover daily operating costs, potential losses, and to make a profit. The margin is a percentage of the outstanding debt which the borrower pays throughout the loan term. The margin rate corresponds to the interest margin of a bank but is generally lower. The issuance is made on a daily basis. | |
| Pass-through cash flow from borrowers to investors? | Yes, the mortgage bank is an intermediary between persons requiring loans for the purchase of real properties and investors funding the loans by purchasing bonds. | |
| Asset substitution in cover pool allowed? | No, (due to Danish legislation) asset substitution is not allowed/possible. | |
