1. In brief

Covered bonds

Nordea covered bond operations

Four aligned covered bond issuers with complementary roles

Nordea Eiendoms kreditt

Nordea Hypotek

Nordea Kredit

Nordea Mortgage Bank

Legislation	Norwegian	Swedish	Danish	Finnish
Cover pool assets	Norwegian residential mortgages	Swedish residential mortgages primarily	Danish residential & commercial mortgages	Finnish residential mortgages primarily
Cover pool size	EUR 38.9bn (eq.)	EUR 70.1bn (eq.)	Balance principle	Pool 1: EUR 5.3bn Pool 2: EUR 22.4bn
Covered bonds outstanding	EUR 22.7bn (eq.)	EUR 35.1bn (eq.)	EUR 56.8bn (eq.) ¹	Pool 1: EUR 4.6bn Pool 2: EUR 18.0bn
OC	71%	99%	7.4% ¹	Pool 1: 14% / Pool 2: 19%
Issuance currencies	NOK	SEK	DKK, EUR	EUR
Rating (Moody's / S&P)	Aaa / -	Aaa / -	- / AAA	Aaa / -
Outstanding green covered bonds	EUR 2.6bn	EUR 2.3bn	EUR 2.3bn ¹	EUR 2.8bn

- Covered bonds are an integral part of Nordea's long term funding operations
- Issuance in Scandinavian and international currencies
- All Nordea covered bond issuance entities (MCIs) refer to Nordea's updated 2025 [Nordea green funding framework](#)

¹⁾ The figures for Nordea Kredit only include capital centre 2 (SDRO). Nordea Kredit no longer reports for CC1 (RO), as this capital centre only accounts for a minor part (<0.5%) of the outstanding volume of loans and bonds

Nordea Mortgage Bank Plc – overview

Q2 2026

100% owned subsidiary of Nordea Bank Abp - the largest Nordic financial institution

Operates as a mortgage credit institution with the main purpose of issuing covered bonds

Issuing covered bonds according to the Finnish covered bond legislation

Legacy bonds

Old Covered Bond Act (688/2010), secured by Cover Pool 1

New covered bonds

New Mortgage and Covered bond Act (151/2022), secured by Cover Pool 2

Acting in a healthy and conservative Finnish housing market. Market share of Nordea ~30% of the Finnish mortgage market (housing loans)

Dedicated liquidity line provided by Nordea Bank Abp to manage daily cash needs and ensure compliance with external and internal requirements regarding liquidity management

MOODY'S

Covered bonds rated Aaa by Moody's

2. Cover pool characteristics

Cover pool key characteristics

Q2 2026

Cover pool summary	Cover pool 1 (Legacy)	Cover Pool 2 (New)

Amortisation*	Bullet/interest only 2.5%, Amortising 97.5%	Bullet/interest only 2.2%, Amortising 97.8%
Substitute assets	None	None
Pool type	Dynamic	Dynamic
Loans originated by	Nordea Bank Abp. (as of 1 October 2018)	Nordea Bank Abp. (as of 1 October 2018)

Cover pool key characteristics (2)

Q2 2026

Cover pool balance by loan category

Cover pool balance by region

Cover pool key characteristics (3)

Q2 2026

Distribution of collateral assets – Pool 1

Distribution of collateral assets – Pool 2

3. Asset quality

Continuous distribution where each loan can exist in multiple buckets

Loan To Value (LTV)

Q2 2026

Cover Pool 1 - Weighted Average LTV – Indexed – 50.0%

Cover Pool 2 - Weighted Average LTV – Indexed – 57.0%

Loan structure

Q2 2026

Underwriting criteria

Residential mortgage loans

- Nordea's credit decision is based on the borrower's repayment capacity and collateral is always taken
- Collateral must be in the form of mortgages in real estate or in shares in housing companies
- Repayment ability of borrowers is calculated using stressed scenarios
- Credit bureau check is always conducted (Suomen Asiakastieto)
- Individual valuation of property based on market value
- Repayment schedules ranging from 20 to 30 years

Multi-family residential mortgage loans

- Borrowers with strong EBITDA/debt and cash flow based on e.g. long-term high quality lease contracts and adequate interest rate hedging
- Individual credit decision based on credit policy and rating
- An evaluation of all property-related commitments is performed in the ordinary annual review against a background of quality issues/risk factors regarding the property itself, the lease, the management, the long-term cash flow and -strength of balance sheet/gearing. The analysis focuses on the repayment capacity
- Individual valuation of property based on market value

4. Covered bond framework

Finnish covered bond framework

	Cover pool 1 – old until July 2022	Cover pool 2 – new as per July 2022
Legal framework	Finnish Covered Bond Act (statute 688/2010)	Finnish Mortgage Banks and Covered Bonds Act (statute 151/2022)
LTV ratios	Limit on LTV ratio – based on the current value • 70% for housing loans (residential property) • 60% for commercial loans (commercial property)	Limit on LTV ratio – based on the current value • 80% for housing loans (residential property) • 60% for commercial loans (commercial property)
Coverage	Matching cover requirements • Total value of the cover pool must be greater than the aggregate outstanding principal amount of the covered bonds • Net present value of the cover pool must be at least 2% above the net present value of the liabilities under the covered bonds	Overcollateralization requirements • Value of the cover pool must be at least 2% above the value of the payment liabilities under the covered bonds calculated on a net present value basis or on a nominal value basis depending on which method provides a lower value for the cover pool • In addition, the overcollateralization must cover the estimated winding-down costs of the covered bonds
Liquidity risk mitigation	Liquidity requirements • Average maturity of the covered bonds must not exceed the average maturity of the loans entered in the register • Total amount of interest accrued from the cover pool assets, during any 12-month period, must be sufficient to cover the total amount payable under covered bonds and derivatives transactions during the same period	Liquidity Buffer Requirement • Cover pool must also include liquid assets in the amount that covers the maximum net liquidity outflow during the next following period of 180 days • When determining the net liquidity outflow, the issuer may use the soft bullet maturity date as the date when the covered bond matures

Finnish covered bond framework (2)

Cover pool 1 & 2

Registration

- Collateral assets remain on the balance sheet of the issuer
- Covered bonds, collateral and relevant derivative contracts are entered in a separate register

Bankruptcy remoteness

Isolation of registered collateral assets and registered derivatives from all other assets and liabilities of the insolvent issuer

Preferential claim

Holders of covered bonds together with counterparties of registered derivatives and creditors of management and settlement costs in bankruptcy would rank pari passu and have a preferential claim to the cover pool assets

Post-bankruptcy procedures

- A bankruptcy administrator is appointed by the court (administration of estate) and a supervisor is appointed by the Finnish FSA (protection of covered bond creditors' rights)
- The cover pool, derivatives and covered bonds to be kept separated from the bankruptcy estate and remain outstanding until their maturity unless the coverage requirements can no longer be met, in which case the bankruptcy administrator will upon request or consent of the supervisor accelerate the covered bonds and liquidate the cover pool assets
- Covered bond creditors, counterparties of registered derivatives and creditors of management and settlement costs would rank pari passu and have a preferential claim on the proceeds of the liquidation of the cover pool

5. Macroeconomy

Relief, but uncertainty remains

GDP

- The memorandum of understanding signed in June gave relief to global markets. Still, the outlook remains uncertain due to renewed hostilities in the region, trade tensions and elevated public debt. The impact on the Nordic economies has so far been limited. Our growth forecasts are kept largely the same as before the war.
- GDP development was positive for Denmark, Finland and Norway in the first quarter of 2026, while Sweden saw a decline. For FY 2026, positive development is expected across all four Nordic countries.

Source: Nordea Markets and Macrobond

Unemployment rate

GDP, % y/y, Economic Outlook May 2026

Country	2024	2025	2026E	2027E
Denmark	3.9	3.5	2.1	1.9
Finland	0.9	0.8	1.0	1.5
Norway (mainland)	0.6	1.7	1.5	1.3
Sweden	2.0	1.8	2.3	2.1

Nordic economies

Eased risks

Policy rates

Public balance/debt, % of GDP, 2026E (IMF)

- The **ECB** and **Norges Bank** hiked rates to 2.25% and 4.25%, respectively, in Q2. The **Riksbank** kept their rate unchanged at 1.75%
- According to Nordea's forecast, the **ECB** is expected to hike rates three times in 2026 to 3.0% and keep rates steady during 2027
- The **Riksbank** is expected to leave their policy rate unchanged until year-end. In 2027 we expect two hikes to a rate at 2.25%
- **Norges Bank** is expected to hike its policy rate once more in 2026 to 4.5% and leave it unchanged thereafter in 2027
- The deescalation of the war in the Middle East and the opening of the Hormuz Strait in June lowered the oil price markedly and eased inflation risks. Market's expectations on rate hikes shifted lower. However, the outlook remains uncertain.
- Most of the Nordic countries are AAA-rated characterised by robust public finances and solid external balance sheet surpluses

Households

Resilience

Household debt

- Consumer confidence among the Nordic households has improved at the end of the quarter, but remain below their historic normal
- Despite low confidence and high savings rates in most countries, private consumption has been growing, further supported by different tax breaks
- Household purchasing power and consumption are expected to grow at a solid pace. Finland stands as an exception, where higher interest rates and high energy prices could slow the growth

Household savings

Private consumption

Housing markets

Activity holds up

Housing prices

Households' credit growth

- Housing price development in Norway and Denmark have performed better than their Nordic counterparts. Prices in Sweden are increasing, but are still well below the previous peak. The development in Finland remain sluggish with prices still declining
- Policy rates are expected to rise, or has just been raised, in most of the Nordic countries. However, household's financial conditions will still be solid and should support continued increase in housing prices.
- Transaction volumes have normalised in Norway and Denmark, but fallen in Finland. Eased lending requirements contributed to a sharp rise in the number of transaction in Sweden in April and has been elevated in Q2. The supply of homes in Sweden is elevated, but declining from the peak a year ago, and remain elevated in Norway. The supply in Denmark is still at lower levels.
- Household credit growth continues to increase in Sweden and Norway, is levelled in Denmark and remain flat in Finland.
