Nordea Bank Danmark Group Directors' report

Results summary January-June 2015

NBD's operating profit increased 17% to DKK 3.0bn (DKK 2.6bn) (the comparative figures in brackets refer to the first half of 2014). Total operating income was down by 1% to DKK 8.6bn (DKK 8.8bn). Total operating expenses decreased 6% to DKK 5.0bn (DKK 5.3bn). Loan losses decreased to DKK 0.6bn (DKK 0.9bn). Net profit for the period increased 17% to DKK 2.3bn (DKK 2.0bn).

NBD has been successful in capturing business opportunities which contributed to maintaining high revenues. The first half-year was characterised by exceptionally low interest rates which put pressure on interest margins, but the low interest rates also resulted in high mortgage refinancing activity and had a positive effect on NBD's own interest rate positions.

Nordea continuously invest in new digital solutions. So far in 2015 Nordea has introduced a new online investment tool, Nordea Investor, and a daily banking app for corporate customers.

Income

Total operating income decreased to DKK 8.6bn (DKK 8.8bn) mainly affected by lower net interest income.

Net interest income decreased 7% to DKK 5.1bn (DKK 5.5bn) due to lower net interest income in the business areas. The negative interest rate of 75 bp (2014 positive interest rate of 5 bp) on certificates of deposit with the Danish central bank put additional pressure on deposit margins for both corporate and household customers. Loans to the public were DKK 604bn (DKK 604bn). Deposits from the public decreased 5% to DKK 285bn (DKK 299bn).

Net fee and commission income increased 8% to DKK 3.1bn (DKK 2.9bn). Savings-related commissions increased 9% to DKK 2.2bn mainly due

to higher brokerage and asset management commissions following high activity. Lending-related commissions increased 22% to DKK 0.6bn as customers to a high degree utilised the low interest rate level to refinance their mortgage loans to longer-term fixed rated loans.

The net result from items at fair value decreased to DKK 0.1bn (DKK 0.2bn). The first half of 2015 was negatively affected by DKK 0.2bn from a non-recurring fair value change of the mortgage portfolio due to negative interest rates. NBD's own interest rate positions were positively affected by the decline in interest rates and gains in equities primarily from exits and revaluations in the private equity portfolio.

Expenses

Total operating expenses decreased to DKK 5.0bn (DKK 5.3bn). Excluding non-recurring items in 2014 total operating expenses were largely unchanged.

Staff costs decreased to DKK 2.9bn (DKK 3.0bn). Excluding non-recurring restructuring costs of DKK 0.2bn in the first half of 2014, staff costs increased mainly due to higher performance-related expenses following the high activity. Payroll taxes increased affected by the increase in the payroll tax rate from 11.4% in 2014 to 12.2% in 2015. At the end of June 2015 the number of FTEs was down to 6,312 compared to 6,379 FTEs at the end of June 2014.

Other expenses decreased to DKK 2.0bn (DKK 2.1bn). IT costs were slightly up affected by strategic investments in new digital solutions etc while other cost items in general were down.

The cost/income ratio increased to 58% compared to 57% (61% excluding non-recurring items) for the full year of 2014.

Throughout this report the terms "Nordea Bank Danmark" and "NBD" refer to the parent company Nordea Bank Danmark A/S, business registration number 13522197, and its subsidiaries. The interim report comprises the activities of the legal entity Nordea Bank Danmark A/S and its subsidiaries. The registered office of the company is in Copenhagen. Nordea Bank Danmark A/S is a wholly owned subsidiary of Nordea Bank AB (publ), the listed parent company of the whole Nordea Group. The Second Quarter Results 2014 for Nordea Bank AB (publ) is available on nordea.com. The consolidated interim report for Nordea Bank AB (publ) embraces all the activities of the Nordea Group and provides the most complete and fair view.

Net loan losses

Net loan losses decreased DKK 0.3bn to DKK 0.6bn (DKK 0.9bn). Net loan losses on individually assessed loans decreased to DKK 0.5bn (DKK 0.8bn), and loan losses on collectively assessed loans were unchanged at DKK 0.1bn (DKK 0.1bn).

The loan loss ratio decreased to 21 bp (30 bp for the full year of 2014 and 29 bp in the first half of 2014).

Income tax expense

Income tax expense was DKK 0.7bn (DKK 0.6bn). The effective tax rate was 24% (24%).

In addition to corporation tax, payroll tax expenses in the first half of 2015 amounted to DKK 0.3bn (DKK 0.3bn). Moreover, NBD's general administrative expenses were negatively affected by DKK 0.2bn (DKK 0.1bn) as financial institutions cannot deduct VAT.

Net profit for the period

Net profit for the period increased to DKK 2.3bn (DKK 2.0bn), corresponding to a return on equity in the first half of 2015 of 10.8% (9.7%).

Credit portfolio

Loans to the public decreased by DKK 3bn to DKK 604bn compared to the end of 2014 (DKK 607bn) primarily related to household customers and the public sector.

Impaired loans, gross were DKK 26.4bn and at the same level as at the end of 2014. Performing loans and non-performing loans accounted for 72% and 28%, respectively, of impaired loans, gross.

Impaired loans, net after allowances for individually assessed impaired loans amounted to DKK 17.6bn (end 2014: DKK 18.2bn), corresponding to 261 bp of total lending.

Supervisory Diamond

Also throughout the first half of 2015 the parent company NBD A/S complied with the requirements of the Supervisory Diamond introduced by the Danish Financial Supervisory Authority (FSA).

	30 Jun	31 Dec	30 Jun
	2015	2014	2014
Large exposures (max 125%)	10	11	0
Lending growth (max 20%)	-1	-5	-7
Real estate exposure (max 25%)	8	8	8
Stable funding ratio (max 1)	0.68	0.64	0.64
Liquidity excess coverage (min 50%)	163	136	161

NBD A/S continues to have a strong funding position with a surplus of deposits. At 30 June 2015 the stable funding ratio excluding group internal subordinated loans and equity was 0.76 (0.76 at end-2014).

The liquidity excess coverage at 30 June 2015 was 163% (end 2014: 136%). The liquidity buffer primarily consisted of demand accounts and certificates of deposit with the Danish central bank and high-grade liquid securities.

The Danish FSA has changed the requirement for the large exposure key point from 1 January 2018. The large exposure key point should include the 20 largest exposures after all relevant deductions, which should be below 175% of the common equity tier 1 capital. NBD complied with the changed requirements throughout the first half of 2015.

Capital adequacy

NBD has a strong capital position, good profitability and thereby a solid foundation to meet future capital requirements.

At the end of June 2015 NBD's risk exposure amounts (REA) excluding Basel I floor totaled DKK 256bn (end 2014: DKK 255bn). The increase in market risk and IRB Retail portfolio was somewhat countered by a decrease in IRB corporate portfolio.

The tier 1 capital ratio including profit for the period was 15.9% (end 2014: 14.8%) and the total capital ratio including profit for the period was 19.6% (end 2014: 19.5%). Profit generation over the period and reduced capital deductions where the main reason for this increase in the two capital ratios. Total capital ratio was stable as the increase in tier 1 capital was countered by a decrease in the tier 2 capital due to the termination of a subordinated loan.

The Tier 1 capital ratio excluding profit for the period was 15.0% (end 2014: 14.8%) and the total capital ratio excluding profit for the period was 18.7% (end 2014: 19.4%).

Under Danish law, NBD must publish its individual solvency need on a quarterly basis. For further information, see nordea.com/investor+relations.

Systemically important financial institutions (SIFI)

On 26 June 2015 the Danish FSA announced that NBD is still considered to be a SIFI in Denmark. NBD therefore has to apply a Systemic Risk Buffer (SRB). This is relevant for the NBD Group as well as for the parent company NBD and the subsidiary Nordea Kredit Realkreditaktieselskab. The SRB requirement is 2% in 2019 after full implementation. Due to transitional rules the buffer in 2015 and 2016 is 0.4% and 0.8%, respectively.

The countercyclical capital buffer is at end June 2015 confirmed to remain 0%.

Recovery and resolution of banks

Under the EU Bank Recovery and Resolution Directive (BRRD), banks are required to submit recovery plans to the authorities, detailing how they can be recovered in a severe crisis. Moreover, as part of this implementation, the Danish authorities are to calibrate a crisis management buffer through a requirement to maintain sufficient liabilities with loss-absorbing capacity on the balance sheet. The aim is to ensure an orderly resolution process without having to resort to public financing, which is further underpinned by giving the authorities the tools necessary to resolve large financial institutions in an orderly manner. The BRRD was implemented into Danish law and passed by the Danish Parliament on 26 March 2015. The law came into force on 1 June 2015.

Continued focus on simplification

As an important lever to build the Future Relationship Bank Nordea continues to invest in its simplification programme, which will create a more scalable, resilient and agile platform for the Nordea Group. Nordea are progressing in designing our future data and technology architecture and will in the coming quarters launch the first products on the new payment platform.

As part of the simplification of our processes, NBD has also initiated a dialogue with the authorities regarding its legal structure. The purpose is to simplify the legal structure by changing NBD to a branch and thereby strengthen governance, decrease administrative complexity and become more efficient. It will not lead to changes in the presence in Denmark nor to changes for the employees or the way NBD services its customers, but will support the work to increase agility and scale benefits.

New organisation in Banking Denmark

In June 2015 Banking Denmark in Retail targeted and simplified its management and organisational structure. The branch regions were changed to focus on either household or corporate customers. The change was made to fulfil the new Nordic Retail strategy to achieve the most satisfied customers and employees and the best profitability on all markets.

Risks and uncertainties

For information on risks and uncertainties, see Note G10.

Ratings

The ratings of Nordea Bank Danmark A/S are unchanged or improved.

The ratings of Nordea Kredit's bonds remain unchanged. The bonds have been assigned the highest ratings by the ratings agencies Moody's Investors Service (Aaa) and Standard & Poor's (AAA).

	Jan-Jun	Jan-Jun	Full year
DKKm	2015	2014	2014
Cash and balances with central banks	55,651	72,343	52,030
Loans to credit institutions, payable on demand	5,572	5,139	4,072
Total	61,223	77,482	56,102

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with the Danish central bank where the balance on the account is readily available at any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities.

Note G1 Accounting policies

1. Basis for presentation

The consolidated financial statements for the Nordea Bank Danmark Group are presented in accordance with International Financial Reporting Standards (IFRS) and interpretations of such standards by the International Financial Reporting Interpretations Committee (IFRIC), as endorsed by the EU Commission, and additional Danish disclosure requirements for interim reports laid down in the Danish IFRS Executive Order on financial services enterprises issued pursuant to the Danish Financial Business Act.

These consolidated financial statements are presented in accordance with IAS 34 "Interim Financial Reporting".

The financial statements have not been reviewed or audited.

2. Changed accounting policies and presentation

The accounting policies and basis for calculations are, in all material aspects, unchanged in comparison with the Annual Report 2014.

The presentation of assets and liabilities in pooled schemes are changed as described below. A part from this change, the presentation is unchanged in comparison with the Annual Report 2014.

The following amendments published by IASB were implemented 1 January 2015 but have not had any significant impact on NBD's financial statements:

- Amendments to IAS 19 "Defined benefit plans: Employee Contributions"
- Annual Improvements to IFRSs, 2010-2012 Cycle
- Annual Improvements to IFRSs, 2011-2013 Cycle
- IFRIC 21 "Levies"

Pooled schemes

NBD invests in interest-bearing securities and shares on behalf of pension pool customers. The customers have the investment risk from these interest-bearing securities and shares.

In the interim financial statements for the first half of 2015 assets in pooled schemes have been presented on a separate line on the balance sheet named 'Assets under pooled schemes'. Previously the assets in pooled schemes were presented together with interest-bearing securities and shares for which NBD had the investment risk.

The return on liabilities in pooled schemes is based on the return from the assets in the pooled schemes. The nature of liabilities in pooled schemes is therefore different from other deposits from the public.

In the interim financial statements for the first half of 2015 liabilities in pooled schemes have been presented on a separate line on the balance sheet named 'Liabilities under pooled schemes'. Previously the liabilities in pooled schemes were presented as 'Deposits and borrowings from the public'.

The comparable figures have been restated as follows:

	31 E	Dec 2014	30 June 20		
DKKm	New policy	Old policy	New policy	Old policy	
Interest-bearing securities	63.939	74.798	60,330	72,139	
Shares	3,437	21,503	11,898	28,757	
Other assets	5,878	6,001	9,927	10,046	
Assets under pooled schemes	29,048	-	28,787	-	
Deposits and borrowings from the public	286,630	318,546	299,022	331,165	
Liabilities under pooled schemes	31,916	-	32,143	-	

The changes in the presentation have no impact on the income statement or equity.

3. Impact on capital adequacy from new or amended IFRS standards IFRS 9 "Financial instruments"

IFRS 9 "Financial Instruments" covering classification and measurement, impairment and general hedging has been adopted by the IASB but has not yet been implemented by NBD.

The changes in classification and measurement are not expected to have a significant impact on NBD's income statement or balance sheet as the mixed measurement model will be maintained. Significant reclassifications between fair value and amortised cost or impact on the capital adequacy or large exposures are not expected, but this is naturally dependent on the financial instruments on NBD's balance sheet at transition.

The impairment requirements in IFRS 9 are based on an expected loss model as opposed to the current incurred loss model in IAS 39. In general, it is expected that the new requirements will increase loan loss provisions, decrease equity and have a negative impact on capital adequacy at transition. NBD has not yet finalised any impact assessment.

The main change to the general hedging requirements is that the standard aligns hedge accounting more closely with the risk management activities. As NBD generally uses macro (portfolio) hedge accounting NBD's assessment is that the new requirements will not have any significant impact on NBD's financial statements, capital adequacy or large exposures in the period of initial application.

IFRS 15 "Revenue form Contracts with Customers"

The IASB has also adopted IFRS 15 "Revenue from Contracts with Customers". The new standard has not yet been implemented by NBD. It is not expected that the standard will have any significant impact on NBD's financial statements, capital adequacy or large exposures in the period of initial application.

Other amendments to IFRS

Other amendments to IFRS are not assessed to have any significant impact on NBD's financial statement, capital adequacy or large exposures in the period of initial application.

The fair value at 30 June 2015 and 31 December 2014 has for loans been estimated by discounting the expected future cash flows with an assumed customer interest rate that would have been used on the market if the loans had been issued at the time of the measurement. The assumed customer interest rate is calculated as the benchmark interest rate plus the average margin on new lending in Retail Banking and Wholesale Banking respectively. The determination of fair value on other items in the balance sheet is described in the Annual report 2014, Note G31 "Assets and liabilities at fair value".

 $^{^{1}\,}$ All items are measured at fair value on a recurring basis at the end of each reporting period.

Determination of fair values for items measured at fair value on the balance sheet

For information about valuation techniques and inputs used in the fair value measurement, see the Annual Report 2014, Note G31 "Assets and liabilities at fair value".

Movements of shares in Level 3

Fair value gains/losses recognised in the income statement during the period

DKKm	1 Jan 2015		Unrealised	- Purchases	Sales	Settlements	30 Jun 2015
Shares	3,491	7	274	270	-281	-18	3,743

Unrealised gains and losses relate to those assets and liabilities held at the end of the reporting period. During the period NBD has not transferred shares from Level 3 to Level 2. Fair value gains and losses in the income statement during the period are included in "Net result from items at fair value".

Note G8 Financial assets and liabilities at fair value on the balance sheet (cont.)

The valuation processes for fair value measurements in Level 3 Shares

For information about valuation processes for fair value measurement in level 3 Shares, see the Annual Report 2014 Note G31 "Assets and liabilities at fair value".

Valuation techniques and inputs used in the fair value measurements of shares in Level 3

DKKm	Fair value	Valuation techniques
Shares		
Private equity funds	1,463	Adjusted net asset value ¹
Hedge funds	1,081	Net asset value ¹
Credit Funds	964	Net asset value
Other funds	88	Net asset value/fund prices1
Other	147	-
Total 30 Jun 2015 ²	3,743	
Total 31 Dec 2014	3,491	

¹ The fair values are based on prices and net assets values delivered by external suppliers/custodians. The prices are fixed by the suppliers/custodians on the basis of the development in assets behind the investments. For private equity funds the dominant measurement methodology used by the suppliers/custodians is consistent with the International Private Equity and Venture Capital Valuation (IPEV) guidelines issued by the EVCA (European Venture Capital Association). The private equity fund investments are internally adjusted/valued based the IPEV guidelines.

In order to calculate the sensitivity (range) in fair value of shares the fair value was increased and decreased within a total range of 2-10 percentage units depending of the valuation uncertainty and underlying assumptions. For more information see the Annual Report 2014, Note G31 "Assets and liabilities at fair value".

Deferred Day-1 profit

The transaction price for financial instruments in some cases differs from the fair value at initial recognition measured using a valuation model, mainly due to that the transaction price is not established in an active market. If there are significant unobservable inputs used in the valuation technique (Level 3), the financial instrument is recognised at the transaction price and any difference between the transaction price and fair value at initial recognition measured using a valuation model (Day 1 profit) is deferred. For more information see the Annual report 2014 Note G1 "Accounting policies".

At 30 Jun 2015 deferred Day-1 profit amounted to DKK 0m (DKK 0m).

² Effects of reasonably possible alternative assumptions are DKK 378 m/-119 m.

NBD does not have the following IRB exposure classes: equity exposures, items representing securitisation positions, central governments and central banks, qualifying revolving retail.

 $^{^{1}\,}$ Includes EAD for on-balance, off-balance, derivatives and securities financing.

Note G10 Risks and uncertainties

NBD's revenue base reflects NBD's business with a large and diversified customer base, comprising household customers, corporate customers and financial institutions, representing different geographic areas and industries.

NBD's main risk exposure is credit risk. NBD also assumes risks such as market risk, liquidity risk, operational risk and compliance risk. For further information on risk composition, see the Annual Report 2014.

None of the above exposures and risks is expected to have any significant adverse effect on NBD or its financial position in the medium term.

Within the framework of the normal business operations, NBD faces claims in civil lawsuits and other disputes, most of which involve relatively limited amounts. None of these disputes is considered likely to have any significant adverse effect on NBD or its financial position in the next six months.

Business definitions

These definitions apply to the descriptions in the interim Report.

Return on equity

Net profit for the period annulised excluding non-controlling interests as a percentage of average equity for the period. Average equity including net profit for the period and dividend until paid, non-controlling interests excluded.

Tier 1 capital

The Tier 1 capital of an institution consists of the sum of the Common Equity Tier 1 capital and Additional Tier 1 capital of the institution. Common equity Tier 1 includes consolidated shareholders' equity excluding proposed dividend, deferred tax assets, intangible assets, the full expected shortfall deduction (the negative difference between expected losses and provisions) and finally other deductions such as other comprehensive income on available for sale investments.

Own funds

Own funds consists of the sum of the Tier 1 capital and Tier 2 capital consisting of subordinated loans excluding 40% of the expected shortfall deduction.

Risk exposure amount

Total assets and off-balance sheet items valued on the basis of the credit and market risks as well as operational risks of the Group's undertakings, in accordance with regulations governing capital adequacy, excluding carrying amount of shares, intangible assets and deferred tax, which have been deducted from own funds.

Common Equity Tier 1 capital ratio

Common Equity Tier 1 capital as a percentage of risk exposure amount.

Tier 1 capital ratio

Tier 1 capital as a percentage of the risk exposure amount.

Total capital ratio

Own funds as a percentage of the risk exposure amount.

Loan loss ratio

Net loan losses (annualised) divided by closing balance of loans to the public (lending).

Impairment rate, gross

Individually assessed impaired loans before allowances divided by total loans before allowances.

Impairment rate, net

Individually assessed impaired loans after allowances divided by total loans before allowances.

Total allowance rate

Total allowances divided by total loans before allowances.

Allowances in relation to impaired loans

Allowances for individually assessed impaired loans divided by individually assessed impaired loans before allowances.

Total allowances in relation to impaired loans (provisioning ratio)

Total allowances divided by total impaired loans before allowances.

Non-performing, not impaired

Past due loans, not impaired due to future cash flows (included in Loans, not impaired).

Cost/income ratio

Total operating expenses divided by total operating income.

Notes to the financial statements, parent company

Note P1 Accounting policies

1. Basis for presentation

The interim financial statements for the parent company Nordea Bank Danmark A/S are prepared in accordance with the Danish Financial Business Act, including the Danish Financial Supervisory Authority's Executive Order on financial reports for credit institutions and investment companies etc. (the Danish Financial Supervisory Authority's Executive Order).

The financial statements have not been reviewed or audited.

2. Changed accounting policies and presentation

The accounting policies, basis for calculations and presentation are unchanged in comparison with the Annual Report 2014.

3. Differences between the Group's financial statements based on IFRS and the parent company's financial statements based on the Danish Financial Supervisory Authority's Executive Order

The accounting policies of the Danish Financial Supervisory Authority's Executive Order for measurement and recognition are in accordance with the Group's accounting policies prepared in accordance with the IFRS with the exception that:

- owner-occupied properties are measured at fair value (revalued amount)
- the category financial assets available for sale is not used.

Moreover, the presentation of the income statement, balance sheet etc. of the parent company and the Group differs.

In terms of amount the difference in the income statement and equity of the Group and the parent company is shown below:

Disclosures of activities country-by-country are on a consolidated basis in accordance with the Danish Financial Supervisory Authority's Executive Order on Financial Reports for Credit Institutions and Investment Firms, etc. section 124a.

Statement by the Board of Directors and the Executive Management

The Board of Directors and the Executive Management have today discussed and approved the Interim Report of NBD Group and Nordea Bank Danmark A/S for January-June 2015.

The Interim Report January-June 2015 for the Group has been prepared in accordance with IAS 34, Interim Financial Reporting, and the Interim Report for the parent company has been prepared in accordance with the Danish Financial Business Act. Moreover, the Interim Report for the Group has been prepared in accordance with additional Danish disclosure requirements for interim financial reports of financial companies. It is our opinion that the consolidated financial statements and parent company's financial statements give a true and fair view of the Group's and the parent company's assets, liabilities, financial position at 30 June 2015 and of the results of the Group's and the parent company's operations and Group's cash flows for the financial half year 1 January – 30 June 2015.

Further, in our opinion, the Director's report provides a fair review of the development in the Group's and the parent company's operations and financial matters, the results of the Group's and the parent company's operations and financial position and describes material risks and uncertainties that may affect the Group and the parent company.
